## U. S. DECIDES CUBAN ELECTION

### HARDING SEEKS POWERFUL CURE TO HELP TRADE

#### Drive On to Reduce Cost of Necessities.

Washington, D. C., April 17.—Legislation to eliminate unnecessary brokerage transactions, to facilitate a wide distribution of information regarding market conditions, and to strengthen the powers of the federal government in its price investigations, is recommended by the federal trade commission in a report on the general industrial situation, drawn up at the request of President Harding and made public tonight at the White House.

"Open price associations" which operate within the laws to keep their respective members advised confidentially of one another's price schedules are accused by the commission of conspiring to the maintenance of unduly high retail prices.

**Cheaper Fuel and Housing Needed.** It is suggested that means must be found to reduce costs of necessities, such as fuel and housing, before other commodities can come back to normal.

The cost of commodities to the consumers has not, broadly speaking, been reduced in proper proportion to the decline in agricultural and other raw materials, the committee says, and says that "in general it would appear that the movement toward the reduction of prices is retarded chiefly at the retailing stage."

Of the work of the "open price associations," the commission says: "Nominally it is to determine uniform cost accounting methods and to study the market by furnishing the supply which it can readily absorb. A fundamental difficulty at the present time lies in the fact that there is no complete information available to anyone with reference to the proper adjustment of manufacturers', wholesalers', and retailers' prices in any industry."

#### Six Recommendations Made.

Six specific recommendations are offered by the commission: 1. The passage of a bill which will meet judicial objections to the authority of this commission to continue its efforts at obtaining and publishing information respecting the ownership, production, distribution, cost, sales, and profits in the basic industries.

2. Vigorous prosecutions under the anti-trust laws, a re-examination of decrees entered in such cases, with a view to strengthening them to meet present conditions, including a closer scrutiny of the so-called open price associations, to ascertain whether they are not violating the laws.

#### When Cooperation Is Favored.

3. Positive encouragement of cooperative associations of agricultural producers and cooperative consumers' organizations. 4. Measures aimed at the elimination of unnecessary reconignment and brokerage operations, "gambling in futures," pyramiding of reconignments and of jobbing sales, "one of the causes of the buyers' strike," and likely to reappear whenever markets again become speculative.

5. Conference of trading nations of the world to consider clearing the channels of international trade as to eliminate undesirable combinations and to promote fair competition. 6. Protection of the farmer against the closely organized elements with which he has to deal by extending adequate and timely federal information concerning foreign and domestic market conditions and providing more ample and suitable local market and storage facilities.

#### Cites "Unfair" Prices.

Five major causes of the failure of retail prices to reflect adequately the reduction in prices of staple commodities are thus summarized: "First—The excessive price of many basic commodities, among which is coal, which vitally affects the cost of other commodities, to say nothing of the effect upon the health and comfort of the buying power of the people. "Second—The existence of the type of corporate monopolies and in distribution agreements in violation of the antitrust laws, illustrated by the conditions in another basic commodity, sugar.

"Third—Open price associations, in many cases not yet challenged by the antitrust laws, illustrated by the conditions in another basic commodity, sugar. "Fourth—Interference with the channels of trade by distributors' trade associations, particularly by activities tending to maintain an unnecessary number of inefficient, regular dealers, thereby shutting out new dealers seeking to sell at lower prices, and especially cooperative purchasing and distribution organizations of consumers.

"Fifth—Conditions with respect to open combinations in the international market."

### Rob and Shoot Cashier in Loop Holdup

Two young bandits yesterday morning slugged and shot Herman Rabey, night cashier for the La Salle Hotel Taxicab company, and robbed him of \$2,500. They fled from Washington and La Salle streets, the scene of the shooting, in an automobile driven by an accomplice. Rabey, who lives at 5113 North Ashland avenue, was taken to the Henrotin hospital with a bullet through the neck.

Rabey left the La Salle garage in Washington street, just west of Wells street, about 8:30 a. m. to deliver Saturday night's receipts to the La Salle hotel. He carried the money in a small black bag. At Wells street two young men swung in behind him and followed until he reached the doorway of the Stock Exchange building. They then closed in on him.

**Clings to Money Grip.** One of the men pushed him into the doorway and struck him over the head with a blackjack, while the other reached for the money bag. Rabey is a big man, weighing 220 pounds. When he would not release his hold on the grip, one of the robbers shot him down. James Bagnuolo, who runs a shoe shining shop near the scene of the shooting, witnessed the escape after he had heard a shot and rushed to the street.

Two young fellows—they couldn't have been more than 20—jump into a black Hudson touring car with red wire wheels," he told the police. "They turned south in La Salle street and went down to Jackson, where they turned west."

The robbers' car passed the La Salle hotel going about forty miles an hour, narrowly missing a Madison street car.

#### "Inside Job," Detective Says.

Jay Abrams, police detective for the La Salle hotel, declared the robbery is undoubtedly an "inside job."

"You know, we hire and fire a great many chauffeurs and some bad men are bound to creep in," he said. "Rabey had many friends among the drivers and I think they will be able to find a clue for us."

The La Salle hotel offered a reward of \$2,000 for the arrest and conviction of the men who did the shooting. Advertisements to this effect were sent last night to the morning papers by Price & Martin, attorneys for the hotel.

#### Robbery in 41 Years Old.

Rabey is 41 years old. He is married and has one son, Roy, 21 years old. At the hospital it was said it will be difficult to say whether he will live or die.

Joseph Moll was locked in the icebox of his saloon at 501 South Kedzie avenue, by robbers, who took \$113 from his cash register.

Two men drove up to Albert Brown, 6219 South Park avenue, in a taxicab, at 58th and South Park avenue, late Saturday night and robbed him of \$70.

### SOCIETY GIRLS BREAK STRIKE OF WAITRESSES

All is serene once more in "The Pantry," the Evanston restaurant of Willis Britemire, former Northwestern university football player.

Britemire purveys food for the consumption of students, but his force of waitresses suddenly walked out. Thereupon he enlisted the aid of Miss Grace Pajean, 1113 Michigan avenue, Evanston, who, it is said, is soon to be chief of Britemire's personal pantry.

She called in Miss Perene Prince, Miss Laura Brown, Miss Dorothy Robbins, and Miss Angela Downey, society girls, and they donned the waitresses' aprons. Yesterday Britemire did a record business.

### Mother Shoots Man 'Who Talked About My Daughter'

Greensburg, Ind., April 17.—[Special.]—Mrs. Cora Wiley today shot and probably fatally wounded Patrick Darmondy, 25, because "He had talked about her daughter, Goldie Wiley, 16, according to Mrs. Wiley.

### FORMER KAISER NEAR COLLAPSE AT WIFE'S BIER

#### Cortege Leaves for Germany Today.

DOORN, Holland, April 17.—[By the Associated Press.]—A service in mourning for the former German empress, Augusta Victoria, was held in Doorn castle this morning, attended by all the members of the former imperial household, some of its most intimate friends, and several officials of the Dutch government.

The service was an affecting one, and during its progress former Emperor William frequently sobbed and at one point seemed at the verge of a breakdown.

Ex-Crown Prince Frederick William, his brothers Adalbert and Oscar, and others of the mourning family were visibly moved as they knelt before the catafalque bearing the coffin in which lay the body.

#### Goes with Body to Maarn.

Never was contrast between former glory and present state of humiliation more accentuated than when Wilhelm, the former German emperor, followed the body of his wife, Augusta Victoria, to the station at Maarn tonight, where he entrusted the faithful companion of his grandeur and his sorrows to his sons and friends to take back to the fatherland.

The emperor that was and the ex-crown prince and other sons present were all attired in full uniform of the Prussian guard, their helmets crepe covered.

The funeral procession arrived at the little station at Maarn in darkness only broken by the light from a few lamps on the railway embankment. First came a huge car covered with flowers, followed by servants, who loaded the wreaths into the railway carriage. About ten minutes later the hearse arrived.

#### Cortege Reaches Station.

From the next automobile Chaplain Dryander alighted wearing black robes. Immediately behind came an automobile carrying the former emperor, his daughter, Princess Victoria Louise, which drove on until it reached a shelter of shrubs hiding it from view.

Frederick William, the ex-crown prince, and Prince Adalbert, in long gray mantles, walked briskly forward. Other members of the family alighted from their cars—Prince Oscar, the Duke of Brunswick, Prince Fuerstentum, Gen. von Contard, together with representatives of the king of Spain and the king of Sweden, and a number of Dutch officials closed the procession.

When all had collected around the coffin the court chaplain, Dr. Dryander, his voice vibrating with emotion, delivered a brief oration. The coffin was then placed in the railway car, and the king of Sweden, and a number of Dutch officials closed the procession.

#### Other Nations Represented.

Representatives of Queen Wilhelmina of Holland, the dowager queen and the princesses, together with representatives of the king of Spain and the king of Sweden, and a number of Dutch officials closed the procession.

When all had collected around the coffin the court chaplain, Dr. Dryander, his voice vibrating with emotion, delivered a brief oration. The coffin was then placed in the railway car, and the king of Sweden, and a number of Dutch officials closed the procession.

When all had collected around the coffin the court chaplain, Dr. Dryander, his voice vibrating with emotion, delivered a brief oration. The coffin was then placed in the railway car, and the king of Sweden, and a number of Dutch officials closed the procession.

#### "A Man Broken by Sorrow."

For a brief period Wilhelm became dimly visible to those who had gathered to watch the ceremony, his face that of a man broken by sorrow. Princess Louise entered the automobile with her father, the door closed and the car glided on, carrying the exile back to Doorn.

Soon after the departure of the ex-emperor the ex-crown prince left the station and returned to the castle with the duke of Brunswick and others who are staying in Holland.

The last farewell visit to the funeral car will be paid tomorrow morning before it proceeds to Potsdam. Those who remained on the train to accompany the body included Prince Adalbert and his wife, Prince Oscar, Prince Fuerstentum, Countess von Keller, Countess von Rantzau and Baron von Spitzenberg.

#### John Daniel, Only Gorilla in U. S., Dies of Pneumonia

New York, April 17.—John Daniel, the only gorilla in captivity in the United States, died today of pneumonia in his private room at Madison Square Garden, where he was appearing with a circus.

### CHARACTER STUDIES

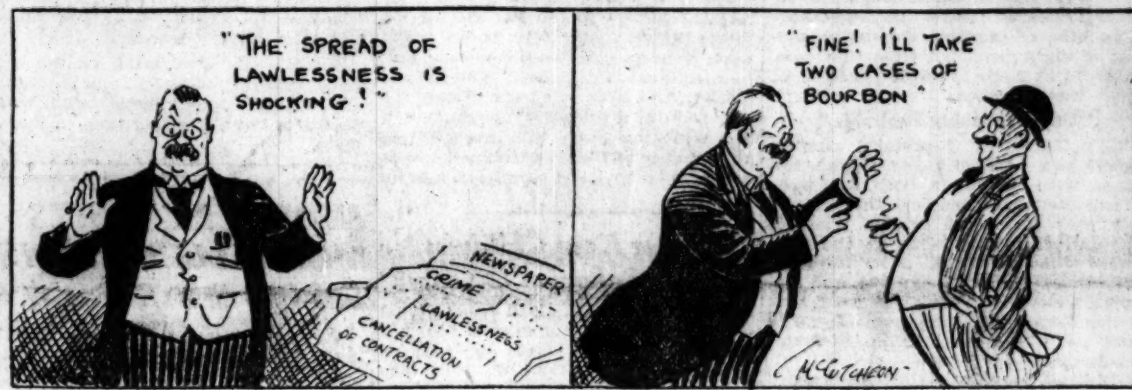

[Copyright, 1921, by The Chicago Tribune.]

The landlord who denounces socialistic tendencies, but whose profiteering practices do much to promote state socialism.

The business man who raves against the extortion of grafting labor leaders, but who refuses to aid in stopping it.

The man who deplores the spread of crime, lawlessness, and relaxed standards of business morality, but who contributes to lawlessness himself.

### AUSTRIA RINGS WITH CRIES FOR GERMAN FUSION

VIENNA, April 17.—[By the Associated Press.]—Notwithstanding the formal disapproval of the government, demonstrations in favor of fusion with Germany were held throughout the country today.

A heavy snowstorm at Innsbruck, in Tyrol, failed to chill the enthusiasm of the meetings, which came as a climax to the agitation of the last three days following the ultimatum of the entente against the plebiscite movement.

In Vienna enormous crowds gathered in Rathaus square under a cold rain and listened for hours to speeches. Afterwards the crowds paraded through the boulevards with bands playing, singing German songs and carrying red, black and yellow banners.

The crowd was composed of the business, professional and civil servants classes and students and members of educational organizations.

#### Michigan Widow Accused of Being Love Incendiary

Paw Paw, Mich., April 17.—[Special.]—Mrs. Lydia Graham, pretty, 22-year old widow of Decatur, Mich., is being held in the county jail charged with making five attempts to set fire to the home of George Steele. She did so, it is alleged, to frighten the mother of Roy Steele, grandson of her employer. Mrs. Steele recently arrived from Detroit to visit her son, and Mrs. Graham, it is said, concluded her sweet-heart had lost interest in her.

#### D'Annunzio Weds Girl Who Shared Trials, Report

[Chicago Tribune-New York Times Cable.] [Copyright, 1921.]

MILAN, April 17.—It is reported by the Rome newspaper Epoca that Gabriele d'Annunzio wedded the young pianist, Luisa Bacara, who kept him company throughout his dictatorship of Fiume. She is the daughter of an ex-colonel of Bersaglieri and is affectionately known among the soldiers as the "Little Venetian of Santo Stefano parish," wherein she was born.

#### Fees Not Increased, M. D.'s Strike in Spanish City

AVILA, Spain, April 17.—The doctors here have declared a general strike because the municipality and the provincial authorities have declined to increase their allowances for attendance on the poor.

#### Jugo-Slavs Levy 50% Tax on German Imports

VIENNA, April 17.—Messages from Belgrade today announce that the Jugo-Slav government has decreed the imposition of a 50 per cent tax on German imports.

### LETTER IN GREEK EXPOSES \$50,000 DRUG RING HERE

#### Two Taken with Big Supply of "Dope."

A Greek letter added the federal authorities yesterday in rounding up the alleged leaders in a \$50,000 drug peddlers' ring.

The letter was written by Charles Costello, prisoner in the Will County jail, charged with violating the Harrison anti-narcotic law, to James Andrews of 422 North Clark street.

The jail authorities had it translated. It advised Andrews to give to "Izzie" Marks a certain package containing thirteen boxes in the event the writer's (Costello's) brother did not get the package first. Andrews was also to hold another package for Costello's brother who would call.

#### Find Thirteen Boxes of "Dope."

United States District Attorney Charles F. Cline was notified. Andrews and Marks were arrested in the Andrews flat in North Clark street. The federal men say they found one package containing thirteen boxes, evidently the one referred to in the letter. In the boxes were heroin, cocaine, morphine, and other drugs.

The government men are now searching for the other package and for the prisoner's brother. They declare these men have been peddling narcotics all through the country and that the place in North Clark street was the headquarters.

It is declared the ring has taken in at least \$50,000 in the last few months. The government agents knew narcotics were being sold and that there were many drug addicts in the North Clark street district, but they could not trace the drugs to their source.

#### Costello Falls Into Trap.

Costello was arrested on suspicion some time ago and sent to the Will county jail, where many federal prisoners are being kept. A strict watch was kept on him in the hope that he would do exactly as he did.

"We were waiting for him to write to somebody," a jail official said. "When he wrote the letter we detained for a little while, anyway, on suspicion. But when we saw the letter was written in Greek we knew we had the right lunch. The interpreter corroborated us."

#### Son of T. O. Dennehy Held Up in West Schiller Street

Two robbers in a battered touring car held up Thomas Dennehy, 17 years old, son of Thomas O. Dennehy, 1549 Astor street, in West Schiller street between North State parkway and Astor street last night. They took \$2 and a pair of gloves.

### Gen. Crowder Picks Zayas; Warns People

Havana, April 17.—[By the Associated Press.]—Dr. Alfredo Zayas, conservative-popular coalition party candidate, was elected president of Cuba in the November election, and, in the judgment of the United States government, nothing should be done to prevent congress from proclaiming him president.

This decision is embodied in a statement made public today by Boaz Long, the American minister to Cuba.

#### Expected to End Deadlock.

It is expected that the announcement of the position of the United States will have a decisive effect in solving the deadlock brought about by the refusal of the Liberal members to attend the sessions of congress and permit the formation of the three-quarters quorum needed to proclaim Dr. Zayas president. The term of President Menocal expires May 20.

Minister Long's note reviews in detail the history of the election held last November and the later partial elections held last month, which were called for by the courts which had annulled the November ballots in a number of electoral colleges.

The note adds that the Liberal coalition party withdrew from the partial elections, alleging as the grounds for withdrawal conditions of intimidation and violence for which the public authorities were responsible. It says the Liberal party at about the same time urged that new general elections in all the six provinces of Cuba be held Nov. 1, 1921, to elect a provisional president.

#### Proposal Opposed by U. S.

The government of the United States was unwilling to consider this proposition, inasmuch as it would establish a precedent which would menace the orderly development of the stable government of Cuba.

Continuing the note says that the United States government, "after the most painstaking investigation," reached the conclusion that there was no reason why the Liberal party should have been apprehensive of violence in the partial elections and that the government of the United States is confident that if the Liberal party had gone to the polls in these partial elections the elections would have proceeded "without organized disturbances and free from disorder, except that which might have resulted from the acts of irresponsible individuals in both parties."

#### People Should Accept Decision.

"The government of the United States," the note says, "considers that the safeguards and resources provided by the electoral code of Cuba have been placed at the disposition of the Cuban people without partiality or discrimination. The result of the elections signifies that the presidential candidate of the Liga coalition party has been elected president."

In the judgment of the government of the United States, the Cuban people should accept this decision as final and no attempt should be made by the members of the minority in the Cuban congress to impede the orderly procedure provided by the constitution and the laws by preventing the congress from proclaiming the successful candidate president of Cuba."

#### Dollar Princess Going to Paris for an Operation

ATHENS, April 17.—Princess Anastasia will be taken in a few weeks to the American hospital in Paris, where she will undergo another operation. Prince Christopher, her husband, will accompany her. The French government has authorized M. de Billy, the French minister here, to vize the passports of the prince and princess. If Great Britain does not object Prince Christopher and Princess Anastasia will go to London after the prince recovers, and afterwards they perhaps will visit the United States.

Princess Christopher said that once in the free atmosphere of the United States he would never return to Greece.

#### So Like 'Tommy' O'Connor He's Locked Up Anyway

He said his name was John Kelly, but he looked like the much wanted Tommy O'Connor, and the detective arrested him. "Don't let him get away," Chief of Detective Michael Hughes shouted, springing out of his chair when he saw the man. Then the chief took a second look. "No, you're not O'Connor," he said. "But you look so much like him we'll lock you up for awhile."

#### Foe of Sunday Movies Shows Films in Church

The Rev. O. F. Jordan, pastor of the Evanston Christian church, who has been one of the chief figures in fighting Sunday movies in Evanston, offered motion pictures to the congregation of his own church last night. The pictures, which, according to the pastor, are dramatized biblical stories and travel scenes, will be shown every Sunday evening.

#### THE WEATHER

MONDAY, APRIL 18, 1921.

Sunrise, 6:05. Sunset, 7:54. Moonset, 4:26 a. m. Tuesday. For Chicago and vicinity: Fair Monday, probably increasing cloudiness Tuesday; rising temperature; variable winds, shifting to southerly.

### IRISH PARADE FOR FREEDOM; 30,000 IN LINE

#### Convention in Erin's Aid Opens Today.

The spirit that has marked Ireland's fight for independence braved crisp breezes yesterday afternoon as miles of Erin's sons and daughters carried the orange, white and green flag with the red, white and blue through Michigan avenue. Marchers estimated at between 25,000 and 30,000, including Miss Mary MacSwiney, Peter MacSwiney, and other international leaders, were in line.

#### The Parade, which was in connection with the first annual convention of the American Association for the Recognition of the Irish Republic, scheduled to open in Madison temple this morning, was pretentious. Vari-colored floats, detachments of mounted police, military units, a troop of cowboys, and elaborately costumed collars combined to make it a spectacle.

#### How They Lined Up.

The police, followed by uniformed veterans of the world war, led off. Eamonn P. Butler, grand marshal, escorted by cowboys from the stockyards, was next in line. The brother and sister of the late lord mayor of Cork and Miss Anna and Miss Susan Walsh, sisters-in-law of a Thomas MacSwiney, MacSwiney's ill-fated predecessor, shared an automobile. The Robert Emmet council led the first division of the line.

The demonstration was frankly an appeal for this country's support in Ireland's fight with England. The marchers carried by the marchers testified to this. "Thirty-six per cent of Washington's army was Irish," read one, "One-fourth of the officers in General Jackson's army in the war of 1812 were Irish," was another, and many others called attention to the loyalty sons of Erin have given to America.

#### Banners Bore Bitterness.

The bitterness that champions of Ireland's cause bear Great Britain was written into some of the banners. "Burn every British but his coat," one of these abjured. And this spirit was evidenced in the songs of the paraders. "Hang Lloyd George to a sour apple tree," sung to a patriotic refrain, greeted the thousands along the line of march.

The parade formed at Chicago avenue and terminated at 14th street, Michigan avenue, the march of the intervening miles, was thronged with spectators. As the procession passed, many stopped from the sidewalks and joined in the parade.

#### Tableaux Symbolize Hope.

A tableau on one of the floats symbolized the aid that Ireland would welcome from the United States. Erin, impersonated by Miss Louise Lowry, was shown clasping to her bosom her orphaned and starving child, Miss Columbia (Mrs. Catherine Wall) was extending her hand of friendship and help.

#### In another float sat "Benjamin Franklin" as he may have appeared when he appealed to the Irish for aid.

America was a struggling republic.

A third float that attracted particular attention was that of the Celtic cross. Marching behind this was a group of white garbed women. The Celtic cross, as a religious organization, is weekly sending hundreds of dollars overseas to the starving and destitute. The spirit of the parade will be that of the two day convention, delegates said. "Recognize the republic of Ireland," will be the burden of speeches, prayers, and resolutions. The latter will be forwarded to President Harding and congress.

#### Mayor to Welcome Delegates.

Mayor Thompson is scheduled for an address of welcome at this morning's session. Mr. P. J. McDonnell, pastor of St. Mel's church, will offer invocation and deliver a message of greeting from Archbishop George W. Mundelein. Attorney Frank P. Walsh will make the opening address.

Irish leaders, recently come from the troubled island, will speak during the afternoon session. Among these will be Harry J. Boland, former secretary to Edmund De Valera; Donald O'Callaghan, stayaway lord mayor of Cork, and Miss Anna Walsh. Other speakers will include John J. Fitzpatrick, president of the Chicago Federation of Labor; Congressman James O'Connor of Louisiana, and Rev. Peter C. York of San Francisco, Cal.

Miss MacSwiney, who interrupted a speaking tour at Washington, D. C., to attend the convention, will address the evening session. Following her will come the Rev. Owen B. Lovejoy, Congressman William E. Mason of Illinois, and Mrs. Mary McWhorter, national president of the women's auxiliary. A. O. H.

Lt. R. Rev. Carl Nydahl, bishop

## COLOMBIAN PACT JUSTIFIED BY ITS OIL, FALL AVERS

British Double Cross U.S.  
in Mexico, He Says.

BY ARTHUR SEARS HENNING.

Washington, D. C., April 17.—[Special.]—That Great Britain is double-crossing the United States in the dispute with the Mexican government over Mexican oil holdings is the charge made by Secretary of the Interior Fall in a remarkable letter to Senator Lodge under date of March 21 last.

The secretary asserted that there is a crisis in oil development affecting not only national prosperity but national safety, which Great Britain is meeting by getting into the oil business and which it behooves the United States to meet to the extent at least of promoting and protecting American oil development abroad.

In Mexico the British government, Mr. Fall says, is protesting against the Carranza confiscatory decrees, while the Agulla company, controlled by the British government, is yielding to the decrees to the disadvantage of the American companies.

Protests Called a "Stall."  
"The British and French governments have each repeatedly protested to the Mexican government, from time to time, along lines exactly similar to the protests made by this government, concerning the confiscatory decrees of the Mexican government under the constitution of 1917, proclaimed by Carranza, and being followed by Obregon," the Fall letter says.

"These protests yet stand as the official last word of Great Britain and France, as exactly similar to the protests yet stand as our last word to that country."

"The Mexican Eagle company (Agulla) has been a member of the American Association of Oil Companies, and has for years cooperated with this association in making protests against confiscatory decrees."

Agulla Firm Cuts Loose.  
"Recently, within the last three months, the Agulla company finally notified the American association that it proposed to pursue its own line and make its own terms with the Mexican government, accepting the Mexican government's demands with reference to oil drilling permits, etc."

"This came as a shock out of a clear sky, and I am informed that after certain protests made by the association and by the American companies, the Agulla company has not in fact obtained titles under this confiscatory decree upon properties belonging to others, but yet has not countermanded instructions to its agents in Mexico to obtain such titles from time to time."

"Nevertheless the British protest still stands and Great Britain is conspicuously acting with the United States officially in identical official protests against the constitution of 1917 and decrees under it."

Tankers Obeying United States.  
"The Agulla company, owned as a matter of fact by Great Britain herself, is, however, yielding to such decrees and obtaining advantage of American companies, who are faithfully abiding by the law and instructions of the American government."

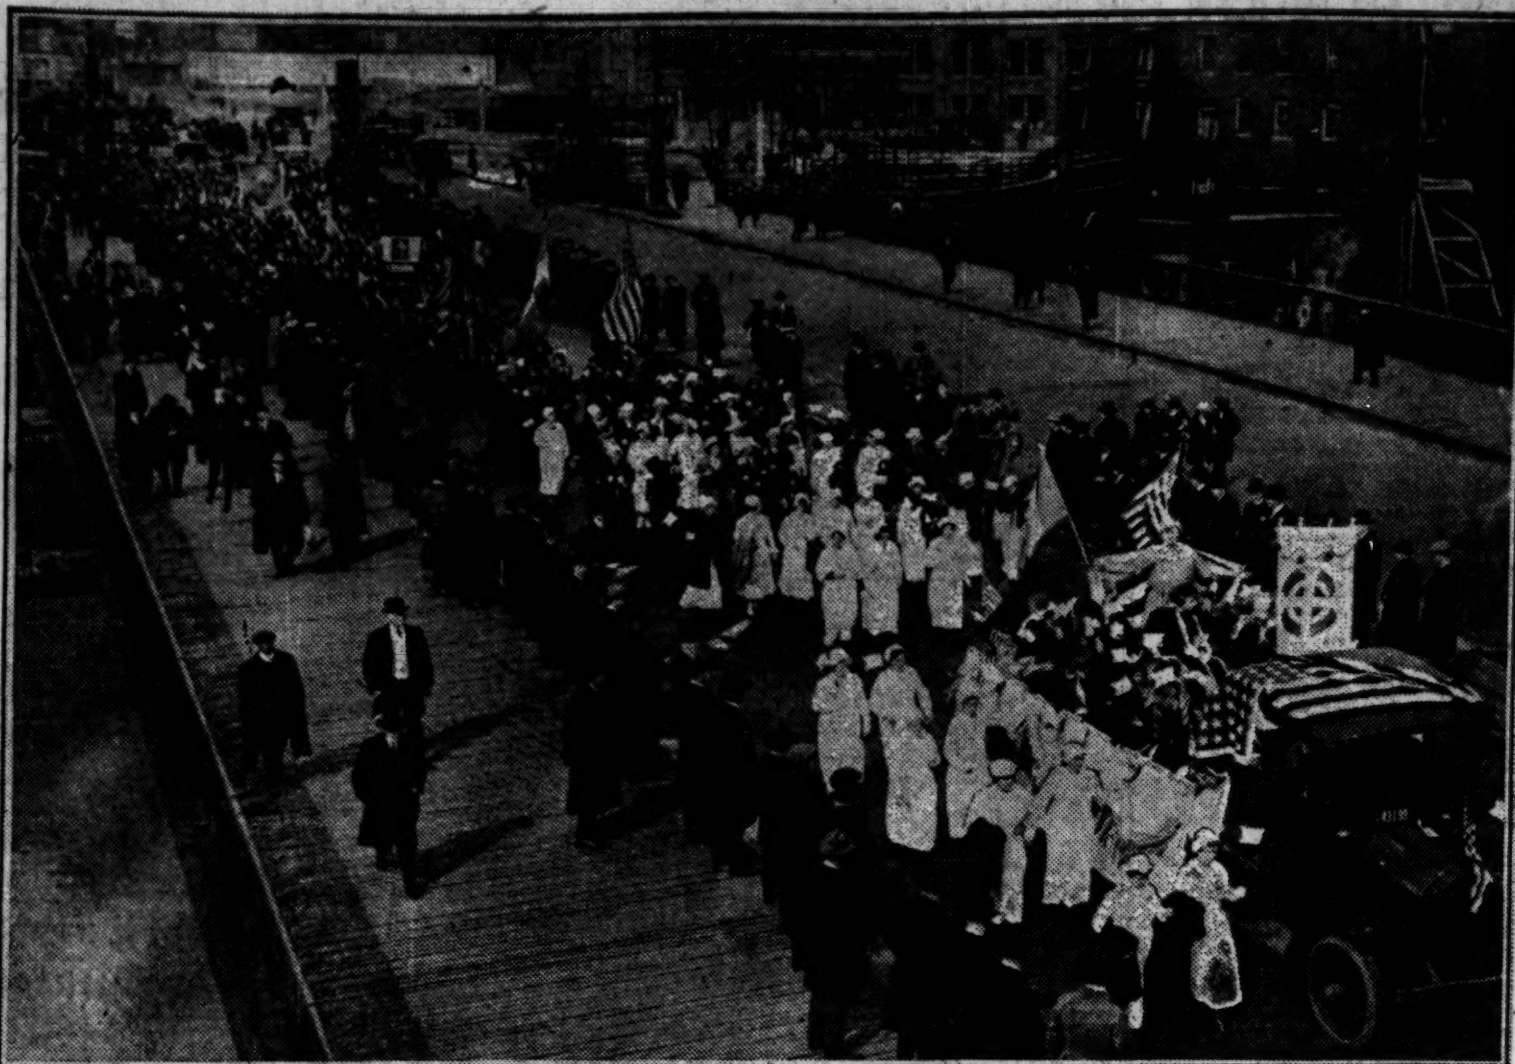

"British oil interests are giving every assurance to Obregon and Mexican officials of their support and friendly cooperation, seeking advantage against or over American companies, while the British government, owning this oil company, is ostensibly standing by the United States government."

"I bring these matters to your attention, and am furnishing you with the diagram referred to, for the reason that it is high time that Americans should understand the situation and as patriotic Americans deal with it."

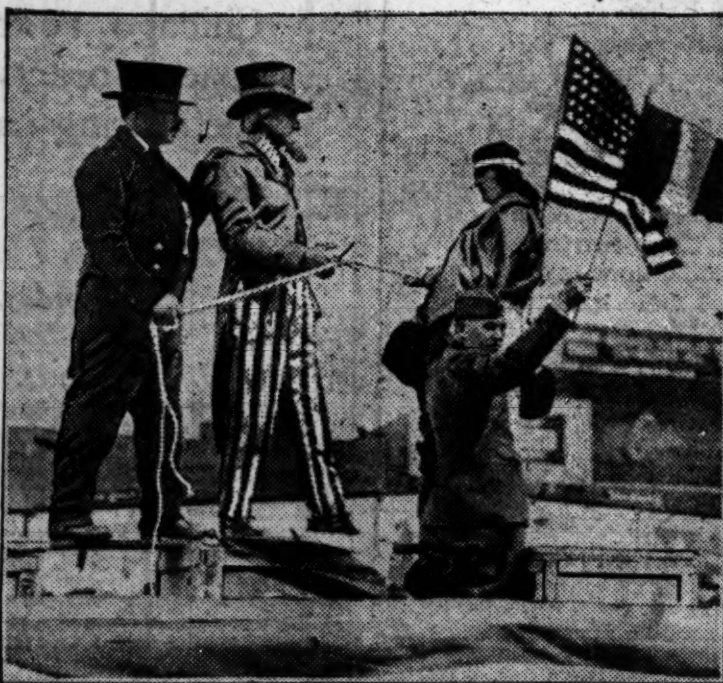

Vast British Holdings.  
The British government, says the secretary, has acquired control of not only British but the Royal Dutch, Shell and other foreign oil companies, the total value of the British national oil investment being double the capitalization of all American oil companies operating at home and abroad. He cites the extensive British national holdings in Oklahoma and California. "The American oil developer and producer in the United States, in Mexico, in Mesopotamia, in Africa, in South America, and elsewhere, working by himself, with practically no protection from his government, has been abused and vilified by American authorities in high places, must come in competition with the great British nation, realizing its duty to itself and encouraging and supporting its citizens with national funds wherever they may be able to obtain a footing through private manipulation or national influence in every country of the world," continues Mr. Fall.

Why Britain Is Powerful.  
"Great Britain, as usual, has a policy of upbuilding and assisting its citi-

## Raising the Curtain for Today's "Irish Republic" Convention

Some of the estimated crowd of 30,000 who paraded yesterday in the opening ceremonial of the first annual meeting of the American Association for the Recognition of the Irish Republic. The convention will start this morning and last for two days. Among the participants in the procession were Peter and Miss Mary MacSwiney, brother and sister of the late lord mayor of Cork.

Float emblematic of the hoped for separation of Ireland from Great Britain, in which the United States is depicted as parting the tie with a pair of shears.

Helen Norton and Eleanor Murane, holding one of the numerous banners which featured the procession. Legends inveighing against Great Britain were conspicuous.

zens in upbuilding the nation, while the American has no protection, and others, as usual, in retarding every effort of the individual citizens of this country in their individual development and objecting to any protection of them as American citizens."

In all this Secretary Fall finds a reason for ratification of the \$25,000,000 Colombian treaty, for the British government owned Royal Dutch Shell controls the oil fields in Venezuela and is in a position to develop the adjoining great oil fields of Colombia if the American oil companies on the scene should lose favor with the Colombian government.

Oil Firms Urge Treaty.  
"Believing, as Theodore Roosevelt and others believed, that friendly and very close relations with Colombia are absolutely necessary for the safety of the Panama canal and of American interests, and realizing, as they do, that friendly relations between the two governments must exist as a preliminary and as prerequisite to the development of Colombia's natural resources by American capital, it is doubtless true that American oil companies are urging ratification of the present treaty," the Fall letter proceeds.

"Remember this, senator: The American investor in the orient must come into competition with the Japanese government in all trade activities; American oil developers and producers must come in competition throughout the world and upon his own soil with the great British government as a government engaged in the same activities. Have no conditions changed."

## PENNSY DENIES OUTSIDE REPAIRS DEPRIVE UNIONS

Philadelphia, Pa., April 17.—Samuel Rea, president of the Pennsylvania railroad, tonight denied prices paid for repair work outside its shops were excessive. He referred specifically to the charge alleged to have been made by William H. Johnston, international president of the machinists' union, that the Pennsylvania in having 200 locomotives repaired in the Baldwin shops spent \$3,500,000 in excess of the cost if the road had done the work itself.

"The direct labor cost of doing this work in outside shops was much less than in railway shops," he said. "For instance, direct labor required to repair 13,066 cars in outside shops cost \$608,494. The same work in railway shops would have cost the Pennsylvania railroad \$1,000,360. The labor cost outside was 40 per cent less. Outside concerns paid their men on an hourly basis. Under the so-called 'national agreement,' the railway had to pay its men by the day."

## STORM'S DEATH TOLL IN SOUTH, 97; LOSS, MILLIONS

Memphis, Tenn., April 17.—Incomplete reports from the six states swept late Friday and Saturday by storms showed tonight a death toll of ninety-seven, with twenty seriously injured and nearly thirty suffering lesser injuries.

Property damage, it was estimated, will run into the millions, and when relief parties report from isolated sections it is feared the death toll may mount higher.

As compiled tonight by states, the death list was: Texas, 9; Arkansas, 66; Mississippi, 8; and Alabama, 14. In Arkansas the injured list had reached seventy-one tonight. In Arkansas, in Miller and Hempstead counties, a rich farming section, estimates place the property loss at \$2,000,000.

Heavy property loss in Tennessee is reported from Newport, Lynnville, and Connersville. In Mississippi much farm land was inundated. In Birmingham property loss is estimated at \$200,000. In Georgia the property loss will exceed \$200,000, it was reported.

## ONTARIO VOTES ON IMPORTATION OF WHISKY TODAY

Detroit, Mich., April 17.—[Special.]—Ontario will vote Monday on the proposal to bar liquor importation into the province.

Preparation for a possible "great drought" are proceeding. Liquor by the trainload is being rushed from Montreal and Quebec to all parts of Ontario for storage in private cellars.

Detroit will be affected if the proposal carries. It will mean a smaller supply for Windsor bootleggers. One estimate is that 1,000,000 gallons have been smuggled through Detroit, Niagara, and Rainy river a year. If the proposal carries they will be obliged to obtain their supplies illegally.

## IRISH WOMAN IS "EXECUTED" AT MONAGHAN

1,000 Emigrants Leave  
for U. S. in Day.

DUBLIN, April 17.—[By the Associated Press.]—The first "execution" of a woman in the strife between the discordant factions in Ireland is announced. She was taken from her home in the Scotstown district of Monaghan today and shot and killed on the bank of the river.

The woman, whose name was Kitty MacCarron, belonged to the farming class.

Drag Victim from Home.  
Kitty MacCarron, who was about 45 years of age, lived with her parents, on the side of which the body was afterwards found with a bullet wound through the cheek, which is the customary sign of Sinn Fein executions. A card on the body was inscribed: "Spies and informers, beware. Tried, convicted, and executed by the Irish republican army."

County Is "Worst in Ulster."  
Neighbors refused aid in the removal of the body, such is the terror inspired in Monaghan by the recent series of terrible deeds which have earned for the county the reputation of the worst in Ulster.

Nearly 1,000 Irish emigrants embarked at Queenstown today bound for the United States. Several attacks on the constabulary were reported today. Two constables were dangerously wounded at Ballina, after which armed forces went through the streets firing bombs and shooting indiscriminately.

A bomb attack was made on a motor car containing auxiliaries Saturday night on North quay, Dublin. The auxiliaries returned the fire and three members of the attacking party were seen to fall.

In an attack on a public house at Ennis Saturday night a soldier was shot and killed and a constable and two women were wounded.

## LEGION RECEIVES LETTER FROM 2 AFTER BERGDOLL

Indianapolis, Ind., April 17.—National headquarters of the American Legion has received a letter from Serg. Frank Zimmer and Charles O. Neaf, written in the cell of a prison in Mosbach, Baden, Germany, on the eve of the sentence for their unsuccessful attempt to capture Grover C. Bergdoll, Philadelphia draft evader. The letter thanks their comrades for the efforts made to free them.

The communication from the two Americans is believed by legion officials to be the first to reach this country. The signatures, legion members say, suggest the men were members of the United States department of criminal intelligence. The letter said:

"On the eve of the beginning of our sentence we wish to extend to you and all members of the American Legion our sincere thanks for the efforts made in our behalf. At the present time this is all we can say."

## WASHINGTON NEWS —IN BRIEF—

[BY A STAFF CORRESPONDENT.]  
WASHINGTON, D. C., April 17.—Secretary of the Interior Fall, in a letter to Senator Lodge, charged that while the British government stands with the United States in protesting against the confiscatory Mexican oil decrees, the British government owned Agulla company has yielded to the decrees, to the disadvantage of American oil companies.

Consumers are urged by the National Coal association to buy their coal during the spring and summer in order to avert a fuel shortage due to shortage of cars in the winter months.

Six specific recommendations designed to speed up the readjustment of retail prices were submitted to President Harding by the federal trade commission.

Representative McFadden of Pennsylvania will advocate legislation abolishing the office of controller of the currency and removing the federal reserve board from possible domination by the treasury department.

Mrs. Fred A. Britten will sail for France this week to present to Marshal Foch a protest against the retention of colored troops in Germany.

Secretary Hughes, in a letter to Samuel Gompers, says the United States will never resume economic relations with Russia while the present soviet regime prevails.

## MRS. BRITTEN TO URGE FOCH MOVE NEGRO TROOPS

Washington, D. C., April 17.—[Special.]—Mrs. Fred A. Britten, wife of the Chicago congressman, will sail for France next Wednesday to present to Marshal Foch a protest against the retention of African troops in Germany.

Congressman Britten said tonight that as a result of his interview yesterday with former Premier Viviani and M. Knecht, he would withhold, pending his wife's appeal to Marshal Foch, his resolution calling on President Harding to use his good offices with the president of France for the removal of these troops.

"I presented to the distinguished French visitor a series of evidence that American Christianity was in no small measure disturbed over the retention of colored semi-civilized troops in control of white Christian people," Britten said.

"Mrs. Britten will present to the marshal the data which I laid before M. Viviani."

## IN THREE WARS, ASKS A JOB TO AVOID POOR FARM

Bernard Hansen, who fought in three wars, is fighting now for work—fighting a losing battle, apparently. And unless help comes he will be taken to the poor farm at Oak Forest. Hansen, a Canadian, served in the Boer war, the Spanish-American, and the world war, and has more medals than he can wear. He was wounded so severely that army surgeons gave him up. He spent more than a year at various hospitals.

When he was taken to St. Luke's he was nearly cured in a month. He is able to work now, but can find no job. He has appealed to the United Charities. He will be at the Charities' office this morning.

It's a matter of  
good judgment  
to dress cor-  
rectly.

No man is well dressed whose  
hats and furnishings lack  
quality and smartness.

We are specialists in the art of  
creating the correct atmosphere  
through furnishings and hats of  
unquestionable taste.

Our prices are notably reasonable,  
and our personal service is gratifying.

## STORM CATCHES COAL BINS EMPTY AND DELAYS MILK

Fuel Dealers Swamped by Orders from Careless.

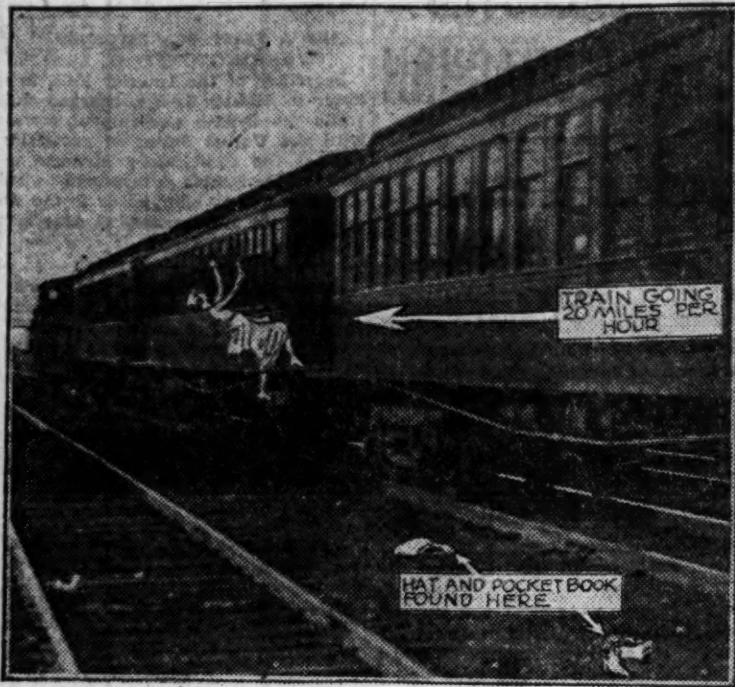

Chicago's blitzard of Saturday, which caught the community in its summer underwear, resulted in a milk and coal shortage, and yesterday, with the storm practically abated, coal and milk companies were busy trying to relieve the situation. The milk shortage was a direct result of the storm, milk shipments being delayed and tied up. The coal shortage came from the city's belief that spring was here and caught rich and poor with empty coal bins. Early Saturday morning thousands who found themselves short of fuel began calling the coal companies, but it wasn't until yesterday that all could be supplied. Because of the stinging sleet and rain, the dealers could not get to the trimmers and chauffeurs out.

**Coal Men Work All Night.**  
All day yesterday and last night, however, companies were working at capacity to supply the demand, and it was said everyone would have fuel before morning.  
Saturday the Consumers' company received nearly 1,000 coal orders at its main office. All of this had been delivered early last night. The orders came not only from small house owners and apartments but from hotels and large buildings caught with small supplies on hand.  
"On the south side," said Charles B. McCarthy, general superintendent of the Consumers' company, "we found it necessary to load up big trucks with coal in bags and allot two bags to each customer to relieve conditions Saturday. Today we have an exceptionally large force of men and all our trucks and wagons at work. There was plenty of coal in Chicago. The citizens let their bins get empty and were caught unaware."

**Milk Trains Tied Up.**  
All Saturday night the milk companies had wagons and drivers ready to deliver the milk which was due to arrive in the city around 10 o'clock, but the heavy snows in the McHenry, Crystal Lake, and Lake Geneva districts caused complete stops, and it wasn't until late yesterday that the trains started coming into the city. Early yesterday the drivers were allowed to go home in order to be ready to make today's deliveries, and thousands of citizens had to go to the dairies for their milk and cream last night.  
Officials of the Bowman and Borden dairies reported conditions would be normal today, with deliveries as usual. Hundreds of milk consumers, failing to find their milk on the doorstep yesterday, called The Tribune asking if the milk drivers' strike had at last been called.

**No Warm Weather in Sight.**  
Although the high wind had abated and the storm passed, weather officials report there is no really warm weather in sight for several days. Yesterday it was below the freezing mark in the morning, rising to 19 degrees in the afternoon. The forecast for today is fair, with a moderate but not rapid rise in temperature, which will keep rising slowly for the next few days.

## DEATH IN THE WIND

Graphic explanation of the mystery surrounding the finding of the body of Miss Lessie Dye beside the Illinois Central railroad tracks near 46th street early yesterday morning. It was first supposed she had been murdered. But subsequent investigation revealed that she had been blown from the platform of a train by the force of the wind. The police believe the safety gate had been left open by a trainman.

## U. S. CONTROLLER ABOLISHED UNDER NEW HOUSE BILL

### Effort to Curb Rights of Treasury Made.

Washington, D. C., April 17.—[Special.]—Legislation abolishing the office of controller of the currency and removing the federal reserve board from possible domination by the treasury department will be pressed by Representative McFadden, Pennsylvania, chairman, house committee on banking and currency.

The McFadden bill provides that the secretary of the treasury no longer shall be a member of the board, instead of ex officio chairman as at present.

**Would Remove Influence.**  
McFadden provides a place on the board for the assistant secretary of the treasury in charge of fiscal business, but he holds this would not mean that the treasury would exercise such an influence over the policies of the board as is now possible.

One additional member would be appointed by the president under the new bill. At present, five members are appointed by the president, in addition to the two ex officio members, the secretary of the treasury and the controller of the currency. There would continue to be seven members, six of them appointed by the president and the assistant secretary of the treasury.

**Powers Go to Board.**  
In abolishing the office of controller the McFadden bill provides that section 224 of the revised statutes of the United States creating a bureau of the department of the treasury known as

## MISS FARWELL'S FIANCE A MAJOR IN WORLD WAR

Announcement was made Saturday of the engagement of Miss Sarah Farwell, Lake Forest society girl, to Lawrence B. Robbins. It is a romance of the war, for Miss Farwell served overseas with the American Fund for French Wounded, while Mr. Robbins was an officer with the 148th field artillery. A few years earlier he went to the border with the same outfit as a private. When he returned the boys were saluting him as major. Mr. Robbins, the son of Mr. and Mrs. Frank A. Robbins of Springfield, Mass., is a member of the Sadle and Cycle and University clubs. While at Yale he was well known as an athlete.

the bureau of the controller of the currency, and sections 325 and 326, relating to the appointment of a controller of the currency, are repealed and all powers and duties conferred or imposed by law upon the controller or the bureau of which he is the chief officer are transferred to the federal reserve board.

**WOMAN FOUND DEAD FROM GAS.**  
Mrs. Mary Kerber, 55 years old, 1837 Byron street, was found asphyxiated by gas yesterday by her husband, John, when he went into her room to call her. A gas jet was open and the family believes she committed suicide while despondent over ill health.

## STORM SWEEPS GIRL TO DEATH FROM I. C. TRAIN

Murder Theory Vanishes as Story Is Learned.

Another death was charged to Saturday's storm when the police established that Miss Lessie Dye, whose body was found yesterday on the Illinois Central tracks, near 46th street, had been blown from the platform of a northbound suburban train.

Miss Dye was 28 years old, and of slender build. She was a domestic in the home of Julius Lamm at 7015 Chappel avenue. Mr. Lamm is in the moving picture business.

Miss Dye was on her way to the Shakespeare theater at 43d and Ellis avenue Saturday evening. She left to catch the 8:05 p. m. train at Bryn Mawr station. She had been furnished a commutation ticket by Mr. Lamm. She had been employed by the Lamm family three weeks, and had not ridden the Illinois Central before, so specific directions were given to her to get off when the brakeman called 43d street.

**Mysterious Tip Tells of Death.**  
The information that led to the finding of her body was of mysterious origin and led to the theory that it might develop into a murder mystery. A man giving the name of Ebert phoned to John J. Gie, towerman at the 43d street station, that a woman's body would be found a few blocks down the track. A deep cut on the forehead indicated a blow might have caused her death.

At Boydston Brothers' undertaking establishment, 4227 Cottage Grove avenue, an examination by Coroner's Physician Joseph Springer determined that her skull, jaw and several ribs were fractured, and these injuries and the resultant shock had killed her.

**A Timid Girl from Country.**  
Sergeants Michael Collins and James McLaughlin interrogated a sister, Mrs. G. A. Rosenbaum, 4896 Indiana, from whom they learned that Miss Dye had been in Chicago a little over a year. She came from Bragadocio, Mo. She was a timid country girl, who had never had a sweetheart, and was without even a girl friend.

Her hat and purse, found on the track a few hundred feet from her body, and the railroad ticket with only one remaining ride in the purse, told the detectives clearly what had happened.

"When the train pulled out of the 47th street station the brakeman called '43d street next.' She rushed out on the platform. The wind just lifted her over the gate," was McLaughlin's explanation.

**SLASHED BY UNIDENTIFIED MEN.**  
Edward Broewsky, 1505 West 19th street, a painter, was taken to the County hospital suffering from stab wounds received early yesterday when he and James Deha 1130 Milwaukee avenue, were attacked by two unidentified men at 18th and Laflin streets.

## JAPANESE STAND ON YANKEE NOTE STILL UNDECIDED

### Opinion Divided as to Mandate Action.

TOKIO, April 17.—[By the Associated Press.]—A sharp division of opinion in governmental circles as to what attitude should be adopted with regard to the American note on mandates is reported by close observers of the situation. An influential group, it is said, insists that Japan should maintain her stand on the award made to her by the supreme council at Paris.

The Jiji Shimpou expresses the opinion that Japan will reply negatively to the note, laying stress on the contention that the supreme council's decision in awarding the mandate for the former German islands in the north Pacific to Japan was an agreement collateral to the peace treaty. It is therefore valid in the same sense as the decision regarding the distribution of

the German warships. Moreover it notes that the United States failed to file a protest when the mandate decision was published in May, 1919.

**Separate Action on Yap?**

The Kokumin Shimbun expresses belief that Japan will seek to satisfy America by settling the controversy over the island of Yap separately. The standpoint of those who believe Japan should stand upon the council's decision is voiced by Prof. Usugi of the Imperial university, who declares that should Japan be forced to comply with the American demand it would be the greatest national disgrace since the return of the Liaotung peninsula to China under the pressure of the European powers after the Sino-Japanese war.

**Puts Case Up to League.**

The news agency quotes an unnamed cabinet minister as declaring Japan must follow the decision of the league of nations, that she has no right to act by herself against its rulings.

The agency also quotes Prof. Hayashi, councillor of the foreign office, as saying that America should approach the league of nations, as Japan has no right to interfere with its decisions.

## FAHERTY'S BOOK TO 'EXPLAIN' ALL ABOUT EXPERTS

Fears \$4,891,528 Fees  
Will Hurt the City Hall.

BY OSCAR E. HEWITT.

Of the \$4,891,528 which the city is paying to five experts on six street improvements, Frank H. Moscoe and Austin J. Lynch, the building specialists, are scheduled to receive 58.8 per cent, or \$2,876,063. The remaining \$2,015,465 is to be divided between Ernest H. Lyons, Edward C. Waller Jr., and Arthur S. Merigold, experts on real estate.

To explain those two sentences, Michael J. Faherty, president of the board of local improvements, said yesterday he will write a book and distribute it to every voter in Chicago. When Mike says he will write the book he means it in a managerial sense, as when Mike says he built the boulevard link he means he is head of the board of local improvements which awarded the contracts for the construction. When Mike says positively he will do a thing, the chances favor it being done.

### Job Will Require Expert.

Consequently it can be safely assumed that Mike is looking for an expert to write the book. And this job will require a skillful expert to explain convincingly and satisfactorily to all the voters why these five experts are being paid \$4,891,528; how they can earn that enormous sum in so short a time and why the public should be delighted to pay the bill.

But Mike is the boss of the experts in the street improvements, and officially at least bears the responsibility of having selected them. So probably he will find a super-expert who can write his expert book on local improvements. "I'll explain this whole subject of experts, giving all the facts in one book," said Mike.

"Do you think you can get it all in one book?" was asked. "Yes, and it won't have to be a big book, either," replied Mike. "I'll get one of them into every household, and then when you newspapers print anything about experts, every voter can get out his book and read the facts. The people so quickly forget and the newspapers take advantage of that fact."

And Probably Public Will Pay. Probably the public will be called upon to pay for the writing of the book and also its distribution. At least it is understood that the taxpayers will pay for the advertisement which the board has already printed regarding the fees of these five experts.

Mike has never publicly explained how much money he saved the taxpayers in the employment of the three real estate experts at an aggregate compensation of \$2,015,465. No doubt he will claim it is large and could easily cover a chapter or two in his book. Mike has publicly proclaimed that on the two building experts he has saved \$2,235,572. That means that the people should be sincerely thankful that the bill for experts on buildings was not \$5,111,535 instead of \$2,876,063. Mike claims that if he had hired experts and paid them according to the rates of an architects' society they would have received \$5,111,535. But to date he has not produced any prominent member or officer of that architects' society to testify that he is correct. Those who have appeared before the council finance committee have given the distinct impression that Mike is wrong in his contention.

But Mike's book will probably attempt to explain this and other phases of the subject in detail. The fact that Mike thinks it is necessary or expedient to have a book to explain conveys the idea that there is something that needs explanation. Lack of explanation may be read in the gears of the city hall political machine.

### No New Cardinals for

### U. S. in June, Vatican Says

ROME, April 17.—No new American cardinal will be created at the June consistory. This was confirmed at the Vatican today.

South American diplomats are using their best efforts with the holy see for representation of their countries in the sacred college.

According to reports in circulation at the Vatican, the Most Rev. John Joseph Glennon, archbishop of St. Louis, is the prelate who is most likely to succeed the late Cardinal Gibbons as archbishop of Baltimore. In addition to Archbishop Glennon, the Rt. Rev. William T. Russell, bishop of Charleston, S. C., is being talked of as the possible successor of Cardinal Gibbons.

### SIXTY DAUGHTERS, KILLED.

Champaign, Ill., April 17.—(Special.)—George Sanders, an employee of the University of Illinois, was killed tonight when he fell from a bicycle and fractured his skull. He was carrying his little daughter on the handle bars and her foot caught in the spokes of the wheel, throwing them to the pavement. The daughter was not injured.

## CHORUS: "In the Days of '49, the Days of '49"

Aboard three prairie schooners, the Nieman and Peck families, formerly of Michigan City, Ind., cruised into Chicago Saturday night en route to Northern Wisconsin, their future home. Yesterday the voyagers "camped out" under the North Michigan avenue bridge, while over their heads rolled the motored conveyances of a new era. One of their wagons is a combination kitchen and sleeping room; another is devoted exclusively to "shakedown"; while the third carries furniture. "Chicago is sure hospitable," the "pioneers" vouchsafed. "Chief Fitzmorris fixed us right out with a place to stay." They expect to continue their trip this morning. In the picture are (from left to right) Ray Pugh, Edward Nieman, Arthur Nieman, Arthur Nieman Jr., Mabel Nieman, Mrs. A. B. Peck, Florence Nieman, A. B. Peck, Raymond Nieman, Friend Peck, Russell Peck, and John Jeske. Then there are also Buster, the dog, and Ukee, the cat. (TRIBUNE Photo.)

## EXPECT BRITISH MINE STRIKE TO BE SHORT LIVED

### Men Uneasy as Union's Funds Grow Low.

BY JOHN STEELE.

(Chicago Tribune Foreign News Service.) (Copyright, 1921, by The Chicago Tribune.) LONDON, April 17.—An early break-up of the British coal miners' strike is expected, owing to exhaustion of relief funds and failure of the other members of the triple alliance to support the strike. The funds of the miners' union are not held nationally, but by the separate districts, and yesterday the Warwickshire Miners' association emptied its strong box by paying each member 7 shillings and 6 pence.

The West Lothian association paid each member £1, but will be unable to make any payments next week, expecting to issue credit notes on local stores. Weaken in Other Districts. The Derbyshire and Notts men are reported to be on the verge of returning to work and leaving the national association, while in Yorkshire, which is one of the richest coal districts, the men are discussing immediate return to work on agreement to discuss a final settlement later.

The South Wales miners also are said to be near a break with the federation while the Lanarkshire pumpmen threaten to take the places of the volunteers who are now doing safety work in the mines.

As a precaution and to conserve coal the government will make another 10 per cent cut in train services tomorrow, cutting on long distance, commuter routes. Local London and suburban transportation is not affected.

No Reports of Rioting. The authorities report excellent order in all the mining districts with complete absence of rioting. The only instances of disorder since the strike began have been among miners of foreign descent, among whom are found a large sprinkling of Reds.

The first signs of realization by the government that danger of a great industrial tieup is over came today when the task of clearing the emergency camps in Hyde park and Regents park was begun.

## BANK OF KINDNESS

Draw a Check on It for the Unfortunate.

BY REV. G. A. MAC WHORTER.

"The Infants' aid," organized seven years ago to provide layettes for new born babies and to assist needy expectant mothers, regardless of race or religion, will hold its fourth annual benefit at the White City casino tomorrow evening. "A melody of mirth and melody" will be produced by a cast of twenty-two people under the direction of Ned Becker, Mrs. Arthur Hauschner, and Mrs. Isadore Wolfsohn.

The 500 members of the Infants' aid, of which Mrs. Henry Posner is president, are actively engaged in sewing the many little garments needed to supply the Jewish aid, Bureau of Personal Service, the Home Finding society, the Emanuel Mandel dispensary, the United Charities, Infant welfare stations, Michael Reese hospital service department, and Mount Sinai hospital. A twenty-five bed nursery has been furnished and endowed in the latter institution, which is also supplied with all the baby garments needed. Complete layettes and blankets are sent to Palestine through the Hadassah organization.

additional discomfort from the coal strike to the people of Great Britain, as the need for the already closely held fuel was increased by appearance of wintry weather throughout the United Kingdom.

The leaders of the striking miners have all left London, apparently much to the disappointment of the government departments concerned in the dispute, who had been hoping that it might be possible to get negotiations on the wage question started again.

This desire is in line with the anxiety of the mine owners to come to terms with the men and avoid a prolonged struggle which would lose the world markets for their product.

A mass meeting of railway men held in Carlisle today passed resolutions in favor of calling a general railway strike unless the just claims of the miners were adjusted by next Friday.

## GERMANY'S NEW OFFER TO COME TO U. S., REPORT

Vatican to Transmit It,  
Paris Temps Hears.

PARIS, April 17.—[By the Associated Press.]—Cognizance is taken by the Temps in its leading editorial today of reports that a new reparations offer by Germany is being transmitted to the United States through the Vatican, a move which it characterizes as an attempted diversion by Germany to escape payment to the extent of her abilities.

"There is much ado in Berlin concerning the offers of reparations which the German government is reported to have transmitted to the United States government," says the Temps. "We can only see in such a move another attempt at a diversion."

### Protests at Methods.

"If Germany were prepared sincerely to recognize its responsibilities and resolved to pay to the full limit of her resources as she was invited to do by the United States, she would not adopt such circuitous methods and try to set America up against the European allies."

"Were Germany sincere she would not attempt to evade the fixing of the amount of her debts by opening a debate upon an international loan and upon the amounts owed the United States by the allies."

"By the way," continues the newspaper, "who is governing now in Berlin? Careful observers doubt if Dr. Simons (the foreign minister) is master of the situation."

### Transmitted by Vatican?

It is declared, adds the Temps, that the German propositions have been transmitted to the United States by the Vatican.

Washington, D. C., April 17.—Under an executive order made public by the Vatican, we do not know whether this statement will bring forth a denial from Rome, says the newspaper, but it declares it would not be surprised to learn that the Vatican in fact was taking such action.

## JAWN, SEE WHAT'S PINCH HITTING FOR A DOOLEY

Lancaster, Mo., April 17.—(Special.)—Interwoven in the affairs of Orville Dooley, wealthy young farmer near here, was a thread of finances creditable of a Wallingford. The burning of his \$10,000 home, Saturday, the finding of charred bones, presumably his own, and the subsequent discovery that they were those of an imported skeleton, have brought to light a masterful and intricate plot to defraud.

Dooley was last seen about 9 o'clock Saturday night by one of the tenants of his farm. At 10 o'clock his wife and 7 year old son returned from Queen City and found their home in ruins. Sunday human bones were found in the ruins. Everyone accepted the theory that Dooley had perished in the fire.

Then A. D. Morris, prosecuting attorney for Schuyler county, began an investigation. The bones were scraped of debris and each was found to be perforated with the wire marks of a taxidermist. An anatomical specialist said the bones were those of a Negro.

A net has been thrown out in an attempt to find Dooley.

## GARY PRESCRIBES HARD WORK, FAIR PAY, ECONOMIES

World Owes Living Only  
to Those Who Earn It.

New York, April 17.—[Special.]—Suggestion for the policies of corporations and business in general during the return to normal conditions are made by Elbert H. Gary, chairman of the United States Steel corporation, in an article made public today by System.

Reductions of prices and wages are two of the points made by Mr. Gary, and, in following out this program, his corporation already reduced prices, but has not touched wages.

### Suggestions for the Future.

Every man must choose his own policy according to circumstances," Mr. Gary wrote. "He cannot take any ready made policy. My suggestions are very broad. They are:

(A)—To use every possible effort to keep both plant and organization going. To be patient, thoughtful, aggressive, and courageous. There is now ample business for the man who searches after it.

(B)—To avoid drastic cutting of wages and especially not to cut them disproportionately to the cost of living.

(C)—To sell at the lowest price that will yield a fair profit, but not to make reckless cuts to figures that cannot be maintained. This tends only to unsettle the market.

(D)—To keep inventories at a level which is neither high nor low, and to buy primarily for planned needs. It is as harmful and eventually as disastrous to speculate on prices being lower as to speculate on their being higher.

(E)—To prepare to do business on a permanent low-cost level at the highest possible efficiency and to cut out wastes, whether they be in production or in distribution. The ideal situation is one in which we pay high wages, and by the perfection of machinery and method get low unit-cost production.

(F)—And if there is any question as to what is fair—give the other fellow the advantage."

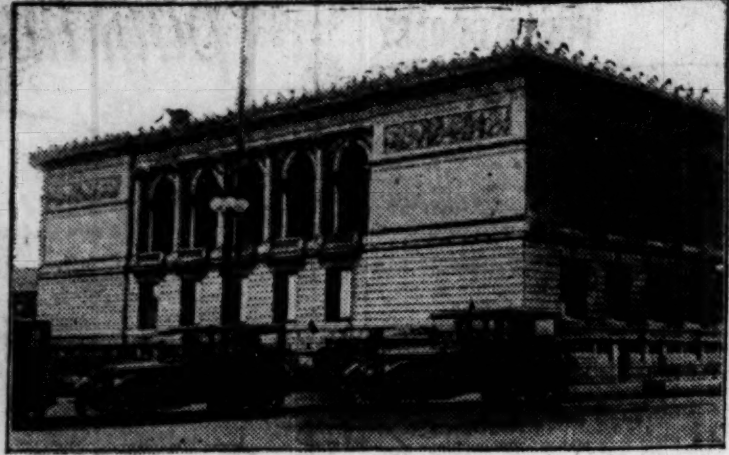

**Depression Held Inevitable.**  
Replying to a series of questions put to him by Samuel Crowther, Mr. Gary also wrote:

"It was inevitable that a period of depression should follow this inflation, and I think it was decidedly salutary that it should for in this country it brought an end to the idea that was gaining ground, and which has gained such ground in other parts of the world, that through some, legendary, organization of society, a substitute might be found for work and intelligence."

"Just so long as the tendency through the business world was to mark up prices, under the impression that the seller and not the buyer made the price, just so long did the highest incentive to efficient production remain dormant."

**World Owes None a Living.**  
"The normal condition of business is for only the efficient worker to have a job and only the efficient employer to have a profit. That seems to be

## FREE BATH!

Into the tub of the elements went the north front of the Art institute on Saturday night. The wind and sleet performed for the public, gratis, a service which has cost the owners of loop buildings many thousands of dollars. The storm mopped the institute's northern facade clean of Illinois Central dirt. But, like a little boy who washes his face but neglects to apply the wash rag back of his ears, it left its job half finished. Another storm, if you please, professor! Evidence of the nor'easter was given along Michigan avenue by other buildings which faced it. The Congress and Auditorium hotels and the University club and the Chicago Athletic association were scoured by the sixty mile gale as effectively as by a sand blast.

(TRIBUNE Photo.)

a very cold, barren sort of statement, and it most certainly is not in line with the notion that the world owes to every man a living. It is unfortunately not true that the world owes to every man a living. The world will give a living only in the measure that a man works for it. And counsel to the contrary is socially pernicious, although it may gain for the moment. "It is incomprehensible that the employers who took profits without regard to the service they rendered, or the workers who demanded wages and hours that had no relation to the work, should think that such policies could possibly continue. They must have known that some day profiteering would have to stop if for no other reason than that there were no more victims left to profiteer on."

**Where Labor Erred.**  
"Take the cause of labor. The leaders of organized labor made constant demands for better pay and shorter hours. In some cases their demands were just and in others they were unjust, but that made little difference in the manner of the appeal nor indeed in its urgency. Labor unions set out to form trade standards. This standard was that of the poorest employed."

"The profiteer works back on himself. The labor organization that makes an unreasonable demand in the way of hours and wages virtually throws a boomerang which will circle through the air and come back and hit it."

"Employers who urged purchasing on the ground that prices were going to be very much higher made precisely the same error. Both went blindly on."

### Russia's Debt to Swiss

#### Is in Several Languages

GENEVA, April 17.—Soviet Russia's debt to Switzerland, according to statistics of the Swiss federal government, amounts to 486,000,000 rubles, 129,000,000 Swiss francs, 6,000,000 French francs, 4,500,000, and 3,000,000 marks. Switzerland does not intend to open trade with Russia until this debt has been paid.

# BATTEN

## Your Son's Inheritance

The man who leaves his son a factory producing unknown goods, leaves him merely a chance to fight for business.

The man who leaves his son a factory producing goods that have a place in the public opinion of the nation, leaves that son an inheritance which only his own folly can destroy.

This shows what it is that advertising expenditure really buys. Unknown merit is merely unknown merit. Merit recognized by public opinion is riches.

Once a month, or more frequently, we issue a publication called Batten's Wedge. Each issue is devoted to a single editorial on some phase of business. If you are a business executive and would like to receive copies, write us.

## MAY YET CHIP NEW STATE OFF NORTHWEST U. S.

### Secession Talk in Idaho and Washington.

Spokane, Wash., April 17.—Agitation for formation of a new state from counties of northern Idaho and eastern Washington, to be carried on for the next two years in the territory affected by a commission of Idaho citizens, under authority of the last Idaho legislature, has existed in one form or another for more than half a century.

As early as January, 1861, a memorial to congress asking for the creation of the "territory of Walla Walla" from parts of the territory east of the Cascade mountains was brought up in the Washington territorial legislature, but was lost.

The present agitation provides for separation of the ten northern counties of Idaho and a part of eastern Washington and their admission to the Union as the state of Lincoln. A memorial to this effect was introduced in the last session of the Washington legislature, but failed of passage.

### FRANCE TIRES AS MEAL TICKET TO WRANGLER'S MEN

(Chicago Tribune Foreign News Service.)  
PARIS, April 17.—Official France is making desperate efforts to convince Gen. Baron Wrangel's half starved hordes who went down to defeat in South Russia at the hands of the Reds that they must work out their own salvations not as an army but as individuals.

The French government officially announced today that owing to the persistent efforts of Gen. Wrangel to keep his army intact, "it is indispensable that we break his contact with the soldiers."

France urges the remnants of the once formidable force either to return to Russia or to go to Brazil where the state of Sao Paulo offers farm lands for 20,000 colonists.

In its note the government says: "France is the only nation which did not hesitate to extend aid to the 125,000 refugees from Wrangel's armies." It fails to add, however, that France was the only nation which formally recognized the Wrangel government.

Asserting that France already has expended 200,000,000 francs in feeding the refugees, the note warns that this cannot continue and that the men must work out their own salvations.

**GEORGIA SUFFERS STORM LOSS.**  
Atlanta, Ga., April 17.—Crops, roads, and bridges in Colquitt county were badly damaged by the rain and wind storm of Saturday, according to reports received here tonight. No lives were lost, but several persons were injured. In some approximately \$25,000 loss was caused by the storm.

La Grange is reported to be warmer than its neighbors these days because of the battle between the "people's" ticket, headed by Col. Oscar P. Chamberlain, and the "citizens'" ticket, headed by Harry W. McClure. Other villages holding elections Tuesday are Maywood, Brookfield, Riverside, and Westside Springs. These are said to be quiet affairs.

### AMERICAN LEGION NOTES

The next meeting of the Hiram J. Stiller post will be held tomorrow night at the City club, fourth floor, 315 Plymouth court. It is an important meeting, and all members are urged to attend.

Marshall Field & Co. post meets tomorrow night in the men's grill of the Marshall Field Annex. Dinner will be served at 6 o'clock. The post also is planning a springtime dance for April 28 at the Hotel La Salle.

### Ask N. Y. Lawyers to Fight for Dry Law in Courts

New York, April 17.—[Special.]—Chief District Attorney Joseph H. Barton issued a call today for lawyers to volunteer to help the district attorney's office without pay in the coming struggle to enforce the new state dry laws in the courts.

Three men found unconscious in a private home in Jamaica from breathing the fumes of moonshine whiskey in process of manufacture were resuscitated by the police and arrested.

## HARDING FAVORS HOLDING LOYALTY MEETINGS MAY 1

New York, April 17.—Commendation of the work of the American Defense society in holding patriotic demonstrations throughout the United States on May 1 to offset what the society describes as "any disloyal meetings that may be held by the bolshevist element" was contained in a letter from President Harding made public here today.

"I feel," President Harding wrote, "that your plan of holding public gatherings at which can be voiced the loyal and patriotic sentiment of the great mass of the people, who too frequently are somewhat too inarticulate in these matters, is excellent and useful. We have need to enlist all the influence that can be counted upon to stand squarely for law, order, and our established institutions of representative government."

**TRAIN KILLS SHEPHERD.**  
Lincoln, Neb., April 17.—Nick Sean, farmer sheriff of Lancaster county, was killed by a Rock Island train here late yesterday.

YOU are invited to visit our

## BRITISH FLEETS SEEK FOE AFTER COAST ATTACKS

Beatty Braves Mines to  
Reach Germans.

The first installment of this thrilling narrative (printed yesterday) of British-German naval action in the North Sea, told of the attack on the British coast in December, 1914, of the shelling of Scarborough and the move of Admiral Beatty's fleet to the German raiders. Lieut. Young saved the action from the fighting top of Beatty's flagship.

BY LIEUT. FILSON YOUNG.

(Copyright, 1921, by U. S. by The Chicago Tribune.)

We felt that we were really on the enemy's track now [wireless having been received that "Scarborough" was being shelled] and the admiral having replied "I am going there." We were not more than 120 miles east of the English coast, and somewhere between us and that coast were the Germans. Another element entered into the situation which seemed to add to the advantage of our position. A belt of enemy minefields, some ten miles broad, lay in a north and south direction over the east coast of England, with a gap in the center of it, the position of which was known to lie between 54.20 and 54.40 N.

By this time we had heard that Hartlepool had been bombarded and it was obvious that the minefield which had been off Scarborough and Hartlepool, in the strip of clear water inside their own minefields, could only emerge from it by this gap in the middle, which lay exactly between those two places, and that we had only to make for this gap in order to catch them on their way out.

The southwest patch of the Dogger bank was a governing element in the operations. The water over this patch is too shallow for big ships, and when we divided at 9 a. m. the battle cruisers went to the north of it and the battlecruisers to the south. Similarly the German forces, when they divided, sailed half to the north and half to the south.

Told to Locate Enemy.

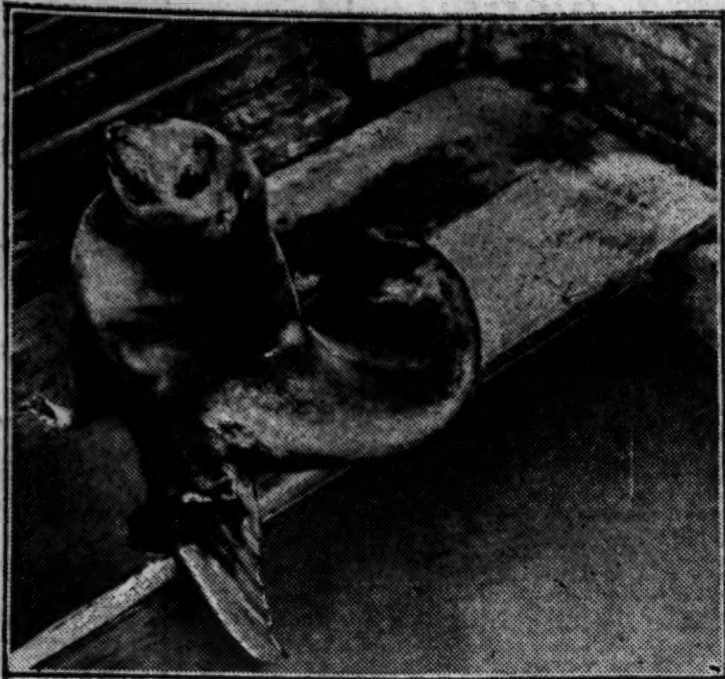

In a minute before 10:30 Sir George Warrender, acting on a signal received from the commander in chief, ordered the battle cruisers to pass through the gap, and our light cruisers were at the same time ordered to "disrupt the minefields and locate the enemy." This order caused some little excitement on board the Southampton, as paravanes had not then been invented, and penetrating minefields was likely to be an operation not without incident. At this point (10:40) the admiral took a hand in the direction of the operation, informing Sir George Warrender that the enemy was probably returning to Heligoland, and that he should keep clear of the minefields and steer a course to cut the enemy off. The battle cruisers were ordered by Sir George Warrender to obey this order. It was met with a very slight alteration of course, and as a matter of fact we continued to go in the gap.

Things were much too exciting for me to leave the signal bridge. When we were in action the deciphering department was transferred to the admiral's chart room on the signal bridge, and as anything might happen at any moment, and as the ship was at action stations, no one thought of going below. And just now, while we were all on the tip top of expectation, destiny made a move. At about 11:30 a sudden and most unwelcome change came over the weather.

Squalls, Mist, and Rain.

Heavy squalls, with thick mists and

## THE GIRLS ADORE THEM

Whiskers, one of the seals in the Lincoln Park zoo.

Girl students in our Monday morning class in zoology will be particularly interested in today's lecture. We present Whiskers, one of the seal family in the all-star animal show at Lincoln park. Whiskers, meet the girls. Mayhap some day your shining skin will drape one of their fair forms in the shape of an expensive coat, wrap, or a neckpiece. Seal, your skin seems to have a pleasant future.

Research informs us that the seal is a pinniped—no, not a pinhead, please. A pinniped is an animal with fin-like legs. Some seals have ears—Whiskers is no blessed—others haven't them. The fur of the earless species is not so

valuable as that of the eared brand. And the earless seals' legs point backward and can't be moved forward. The legs of Whiskers move in all directions.

Seals of all species think fish is the best food—preferably live fish. Rocks are their notion of an ideal sunning spot. Besides the skins which provide beautiful furs for women, the oil of the seal is valuable commercially, and expert animal trainers have exhibited some performing seals that were good for a laugh in any language.

Our notion of a good way to get rich quick would be to start a seal farm. The notion is not copyrighted.

ships themselves and take them, as we hoped, by surprise.

Mistake in Report.

It was the soundest deduction, but it was based, alas! on insufficient reports. Commodore Goodenough, engaged in fighting his ship on a bridge that was constantly being swept, was not in a position to make careful writing on signal pads a very easy matter; probably his signal was transmitted to the signalman verbally, and as received by us it omitted the information that in fact there were two groups of Germans, one consisting of destroyers and light cruisers and the other of light cruisers and an armored cruiser, the Prince Adalbert. At that moment this whole force was flying homeward through the driving mists to the south of us.

In Admiral Beatty's mind, however, Commodore Goodenough was engaged only with the advanced force, and on the assumption that the battle cruisers were close behind them his tactics were calculated to bring them to action with the greatest possible advantage to us. Having stood on to the westward until about 11:50, he altered course to the southward to keep within touch of the light cruisers.

And then occurred the second of two minute but fatal mistakes, which in the writer's opinion, had a profound effect, not only on the fortunes of that day, but of the whole war.

Admiral Beatty's Command.

The second of our light cruisers, the Birmingham, was about two miles astern of Southampton, and if we were about to engage the battle cruisers it was important that, having no destroyers, the light cruisers not actually engaged should be in a position from which they could repel any attack that might be made upon us by light enemy craft. Turning to the

flag lieutenant, the admiral said:

"Tell that light cruiser to resume station. She's too far astern."

The flag lieutenant, who was seldom at a loss for any knowledge or quality pertaining to his duties, and could recognize any ship in the battle cruiser force when she was only a smudge on the horizon, had a moment's doubt whether the shadow amid the driving mists on our beam was the Nottingham or Birmingham. To name her wrongly in signaling to her would cause confusion and delay, and he therefore told the signalman operating the searchlight to call her up simply as "light cruiser." The arc light was steadied upon her, and the signal made, "Light cruiser close," or "Light cruiser resume station." I do not remember which.

German's Narrow Escape.

Although the beams of the lamp bore on his ship, they had a wide enough radius to be read also by Southampton, and the signal reached Commodore Goodenough, still heavily engaged with the enemy, as "Light cruisers resume station." He at once assumed, not unnaturally, that he was being recalled from his unequal combat in order that he should not hamper our battle cruisers in engaging the enemy. He altered course to the westward again; and in three minutes' time we were on for half an hour, when we heard that the second battle squadron and third cruiser squadron had sighted the enemy in latitude 54.23 N., longitude 2.14 E., steering to the eastward. This again was a miss by the narrowest margin. When the commander of the German light cruisers saw the giant forms of our battlecruisers looming up through the mist, he, with great presence of mind, made the recognition signal which Commodore Goodenough had made to him half an hour before, and was in consequence taken at first to be a British squadron. The deception could only be kept up for a minute or two, but it was long enough for him to turn again into the mist and thus make his escape from the 13.5 guns, a salvo or two from which at that range would have blown him out of the water.

Quick Decision Needed.

Here was another moment in which rapid decision was essential. Wherever the German battle cruisers were they were evidently not in company with the force which had been engaged, or we should have encountered them during the last half hour, in which they and we, steaming on opposite courses, had between us covered a distance of twenty-five miles. On the other hand, the forces astern were definitely located. Beatty accordingly turned 18 points and chased to the eastward.

The battle squadron signaled that on their attempting to engage the enemy he had turned north at full speed and disappeared in the mist. Beatty then (1:15 p. m.) turned northward again for about ten miles, but, hearing nothing more, resumed the chase to the eastward at full speed until dusk, when we were recalled to the battle squadron, but neither by us nor by any other of the forces present was touch with the Germans regained. Their battle cruisers, keeping to the north of the shallow patch, were never sighted.

(Third installment will be printed tomorrow.)

NO CRISIS LIKE  
ENGLAND'S HERE,  
GOV. ALLEN SAYS

It is not likely the United States will go through such an industrial crisis as is now raging in England, Gov. H. J. Allen of Kansas told 4,000 persons at the Sunday afternoon club in First Methodist church of Evanston yesterday.

"I am convinced the courage and wisdom of our people will keep such a crisis away," the governor said. "The fear of freezing was responsible for the industrial court established in Kansas during the coal strike. I believe the government should have the right to regulate the relations between the employer and the employee."

## HE'S AWFUL SICK!

JACKIE COOGAN.

(Photo by Underwood & Underwood.)

New York, April 17.—[Special.]—With a smile on his face little Jackie Coogan, "The Kid," is suffering from acute bronchitis and in grave danger of pneumonia developing. Dr. Jessie Heiman, who was at the boy's bedside throughout the night, said he has remarkable vitality. During the night his temperature was 101 and his pulse 110.

## ZIEGFELD SOUNDS DEATH KNELL OF THE CHORUS MAN

New York, April 17.—[Special.]—F. Ziegfeld Jr. is going to eliminate the chorus man from his next "Follies."

Today he announced he will not have a "male chorus" this year, but instead has selected sixteen girls who will be put under a course of training to supplant the chorus men, believing that girls dressed in male attire will be more pleasing to the eye than the time honored chorus man. They will, in his opinion, be more graceful, have greater poise and give a more finished touch to the ensemble.

## LEGISLATORS GO OVER WORKS OF DRAINAGE BOARD

Start Trip Down Proposed  
Waterway Today.

In the interests of the proposed great lakes to gulf waterway, upon which work is soon to start, and proposed improvements of the sanitary district, a joint legislative committee today will leave Chicago by boat for an inspection trip down the drainage canal and the Desplaines and Illinois rivers.

Yesterday the committee, under the direction of trustees of the sanitary district, visited the various works of the district in Chicago and the Wilmette pumping station.

Will Visit District's Work.

On the trip which the legislators start today they will inspect the district's power house and locks at Lockport, proceeding thence over the proposed course of the deep waterway to the sites of the dams and locks at Starved Rock and Marseilles.

While in Joliet the committee will visit the site of the Desplaines river dam, which the United States Supreme court recently refused to allow the Economy Light and Power company to construct. The matter has been in the courts for years, the government finally winning on the Supreme court's ruling that the Desplaines, which has not been used for shipping for more than a hundred years, is a navigable stream.

Several Bills Pending.

Several bills are pending in the legislature in connection with the improvement of the Illinois river in furtherance of the waterway plan, and the idea of the inspection trip is to give the legislators first hand knowledge of conditions.

FIND BORN IN PARK LAGOON.

The body of a unidentified man about 50 years old was taken out of the Jackson park lagoon at East 99th street and Jeffery avenue by the police yesterday. The man was about 6 feet tall, weighed 160 pounds, and did not wear a coat or vest.

## DEATH OF MAJOR TAKES ON SAVOR OF DREYFUS CASE

New York, April 17.—Denial that he was in any way connected with the shooting and killing of Maj. Alexander Cronkhite at Camp Lewis, Tacoma, two and a half years ago, was made here today by Robert Rosenbluth, formerly a captain, army engineer corps.

Rosenbluth, arrested here on a charge of murder, and released after a \$25,000 bail, was accused in an alleged confession made by Sgt. Ronald P. Pothier at Tacoma, of having ordered him to shoot the major, promising him protection if he performed the deed.

United States Senator William M. Calder will demand that a full investigation be made into the charges against Rosenbluth, and that the former captain declare that he is being made the victim of a plot. They as-

sert that the affair has many of the aspects of the famous Dreyfus case in the French army.

Hints at Army Plot.  
Rosenbluth himself, in a statement tonight, charged that Pothier "is either a crazy liar or the willing tool of the wartime system responsible for the so-called 'round robin' and its contingent suicide."

The accused officer claims that the department of justice agents had blundered in the investigation.

"It was to satisfy a private vengeance," he said, "and to hang onto their jobs that I was accused of the murder."

The idea of a premeditated conspiracy to shoot Maj. Cronkhite, Rosenbluth declared, was impossible, as the major was in the hospital four days previous to the shooting and no one knew he was to be with the skeleton regiment on the day of their hike.

"Contrary to public opinion," he said, "we were not at rifle practice on the day of the accident. A skeleton regiment had been formed and it was to be a practice march, instructions in map drawing and the setting up of 'old kitchens'."

"Owing to a change in officers, I, commanding officer of Company D, was marching at the head of the column with Company A. Because of a ma-

chine gun outfit practicing near by, our plans were changed and we took a different route than the one originally planned.

"When we came upon Maj. Cronkhite and Sgt. Pothier, I halted my column about 40 yards away. Apparently Maj. Cronkhite was passing the time away practicing with his pistol on a tobacco can, and after halting the men I walked up, and on the third shot he said to me, 'I got it Rosy!' and a second later said, 'My God, I'm shot.'"

Says He Called Doctor.  
Rosenbluth said he immediately gave orders for the regimental physician to come forward and others who understood artificial respiration, as they all thought he was suffering from heart attack, until a bugler discovered the wound.

"Not a breath of suspicion," Rosenbluth said, "was ever raised during the remaining two and a half months I remained in the army after the accident. It was through the influence of Maj. Cronkhite that I was transferred from Camp Forrest to Camp Lewis with him."

SCHOOL BOARD ELECTION.  
Mount Vernon, Ill., April 17.—(Special.)—Wayne Wainwright was elected president, and Mrs. Mary A. Smith, Mrs. Cora Whitlock and C. W. Reynolds, members, of the city school board.

## 100,000 MINERS IDLE AS MARKET FAILS SOFT COAL

Washington, D. C., April 17.—(Special.)—With "no market" bituminous coal mines are running at half capacity and 100,000 miners are idle, although there are plenty of available coal cars.

Appealing to consumers to buy during the spring and summer, the National Coal association has issued a pamphlet analyzing conditions and pronouncing even distribution of output the year around the outstanding problem of the coal industry.

The association notes that there has been a severe decline in soft coal output this spring. In January the average weekly production in soft coal was 9,613,000 tons, in February 7,728,000 tons, in March 6,592,000 tons, and in the week ended April 2 the soft coal output had slumped to 5,750,000 tons, or approximately 5,000,000 tons below the average regarded as ordinarily safe.

OPERATION FATAL TO WOMAN.  
Mrs. Mayme Miller, 30, 1640 Byron street, died in Great hospital yesterday, supposedly of poison, the result of a recent operation.

TOWELS AND TOWELING

### "WHAT'S NEW AT FIELD'S"

#### What If the Cook Does Leave?

OR even if she doesn't—you can give the nicest kind of a party for any number of guests in our Tea Rooms. You have but to give the order for one of our Special Lunches the day before. Two of the different menus at different prices are displayed in the Tea Rooms this week.

Seventh Floor, North, State.

#### A Good Recipe for the Best Golf You Ever Played

ONE pair of knickers, one jaunty sleeveless jacket, one fascinating and becoming cape. To all is added a fetching little hat—the entire costume made of imported tweed and making not only the smartest but most comfortable Golf Suit a woman could wear. New selections are in Sports Apparel Section.

Sixth Floor, Wabash.

#### Most Becoming Way to Be Useful

OSTENSIBLY, of course, to thwart the mischievous wind, but to do it in the most becoming way, is the mission of the Veil. Something very new, developed right here in our own organization, is veiling edged with wide maline banding. This is softly becoming around the neck, and when brought to the top of the Hat in back, ties in a perky bow.

First Floor, South, State.

#### Holding Their Own in Season of Gay Colors

NOT to be outdone by all the brilliant colors and color combinations devised for new Sports or other Summer clothes, Handkerchiefs show some very original color schemes of their own.

Hand-blocked on Linen are gorgeous colored borders, or all-over one color designs. Hand-rolled hems are a distinctive finish.

First Floor, Middle, State.

#### Laces from Many Countries

FINE net combined with different kinds of laces and embroidery, comes in the width for vestees and gimpes, to give the final distinctive and elegant touch to your frock. In the same piece there may be fillet from China, Irish crochet from Tunis, Point de Venise and embroidery on fine net from St. Gall.

Laces, First Floor, South, State.

#### Wondering What to Get for a Wedding Present?

WHY not a pair of Book Ends? Since there is place for not only one but a number in every home, you need not even fear duplication. Here are some very handsome ones of mahogany with decorative motifs of bronze. In two sizes, \$15, \$15.50.

First Floor, North, Wabash.

#### Buttons Don't Come Off—There Are No Buttons

COULD there be a greater cause for mutual rejoicing between Mother and her small daughter. The Field Frolic Frock is a little gingham dress with belt or sash, finished with hand-stitching, and Bloomers with a pocket in "em, to match. And not a button to the entire outfit. Sizes 6 to 10.

Fourth Floor, North, State.

#### Natural Hudson Bay Sable Chokers

\$32.50 • \$42.50 • \$52.50 and up

A WONDERFUL collection of choice Furs in these very becoming Chokers, at such prices, makes this Selling of unusual interest.

#### A Few Ways Chokers Are Worn

These very versatile little Chokers may be worn as shown above, displaying the length of the pelt. Very graceful is the manner shown at the right.

The full beauty of the pelt is revealed when it is worn Chin-Chin style, as in the sketch at the left. There are still other ways equally captivating.

The skins are of natural color and very full and fine.

Furs, Sixth Floor, North, Wabash.

## Lasting Beauty and Style the Test of Quality

WILL your Wrap be handsome as long as it lasts? If quality has been its first consideration, as in all of our collections, the answer is, Yes. For quality means not only excellency in material and lining, but workmanship that assures exquisite finishing, fine tailoring, and lines that are always distinctive, whether this season or next.

### The Newest Modes Shown in Collections of Women's Handsome Wraps at \$97.50 and \$145

A delightfully youthful Coat of twill cord with full length Tuxedo collar shows sleeves embroidered with French knots. May be worn as Wrap. Left, \$97.50.

The finest quality of duvetyn makes the Wrap with charming new Mandarin sleeve line and two-tone chenille embroidery. Very graceful and becoming; at right, \$145.

### Other Models of Coats and Wraps, Exceptional Values at \$57.50, \$67.50 and Up.

Women's Wraps and Coats, Sixth Floor, North, State.

## Many Social Affairs in Early Spring Call for Becoming New Afternoon Frocks

AN unusually becoming style—this Spring afternoon Frock of taffeta with eyeleted embroidery trimming over crepe Georgette! It's all you could desire for bridge or tea and will fill many a need for an informal afternoon affair. In black, navy, brown and gray. \$115.

Canton crepes and crepe Georgettes are the especially favored materials for Spring. Almost every Frock boasts of an effective trimming of eyelet embroidery or beading in conventional designs.

Women's Frocks, Sixth Floor, South, State.

## White Flowers Effective Contrast on Blue or Black

ALTOGETHER charming are these Hats in poke effect or smart sailor styles. Fashioned of navy or black silk or straw, their trimmings are of white gardenias, pond lilies, orange blossoms, lilacs or white violets.

Each of these delightful Hats is an achievement in style and workmanship, priced at \$25 to \$35.

### About Twenty-five Imported Hats Reduced, \$25

French Rooms, Fifth Floor, North, State.

Neckwear, First Floor, Middle, State.

## Real Lace Neckwear

FILET and Irish laces are a great contribution to Neckwear. You never tire of their beautiful perfection and delicate designs. And hand-made laces wear indefinitely.

Most of the collars are the straight tuxedo style set on a net band. Wide insertion is edged with narrow filet. Prices, \$1.50 to 6.75. The Collar and Cuff Sets, in white and ecru, are \$3.75 to \$8.75.

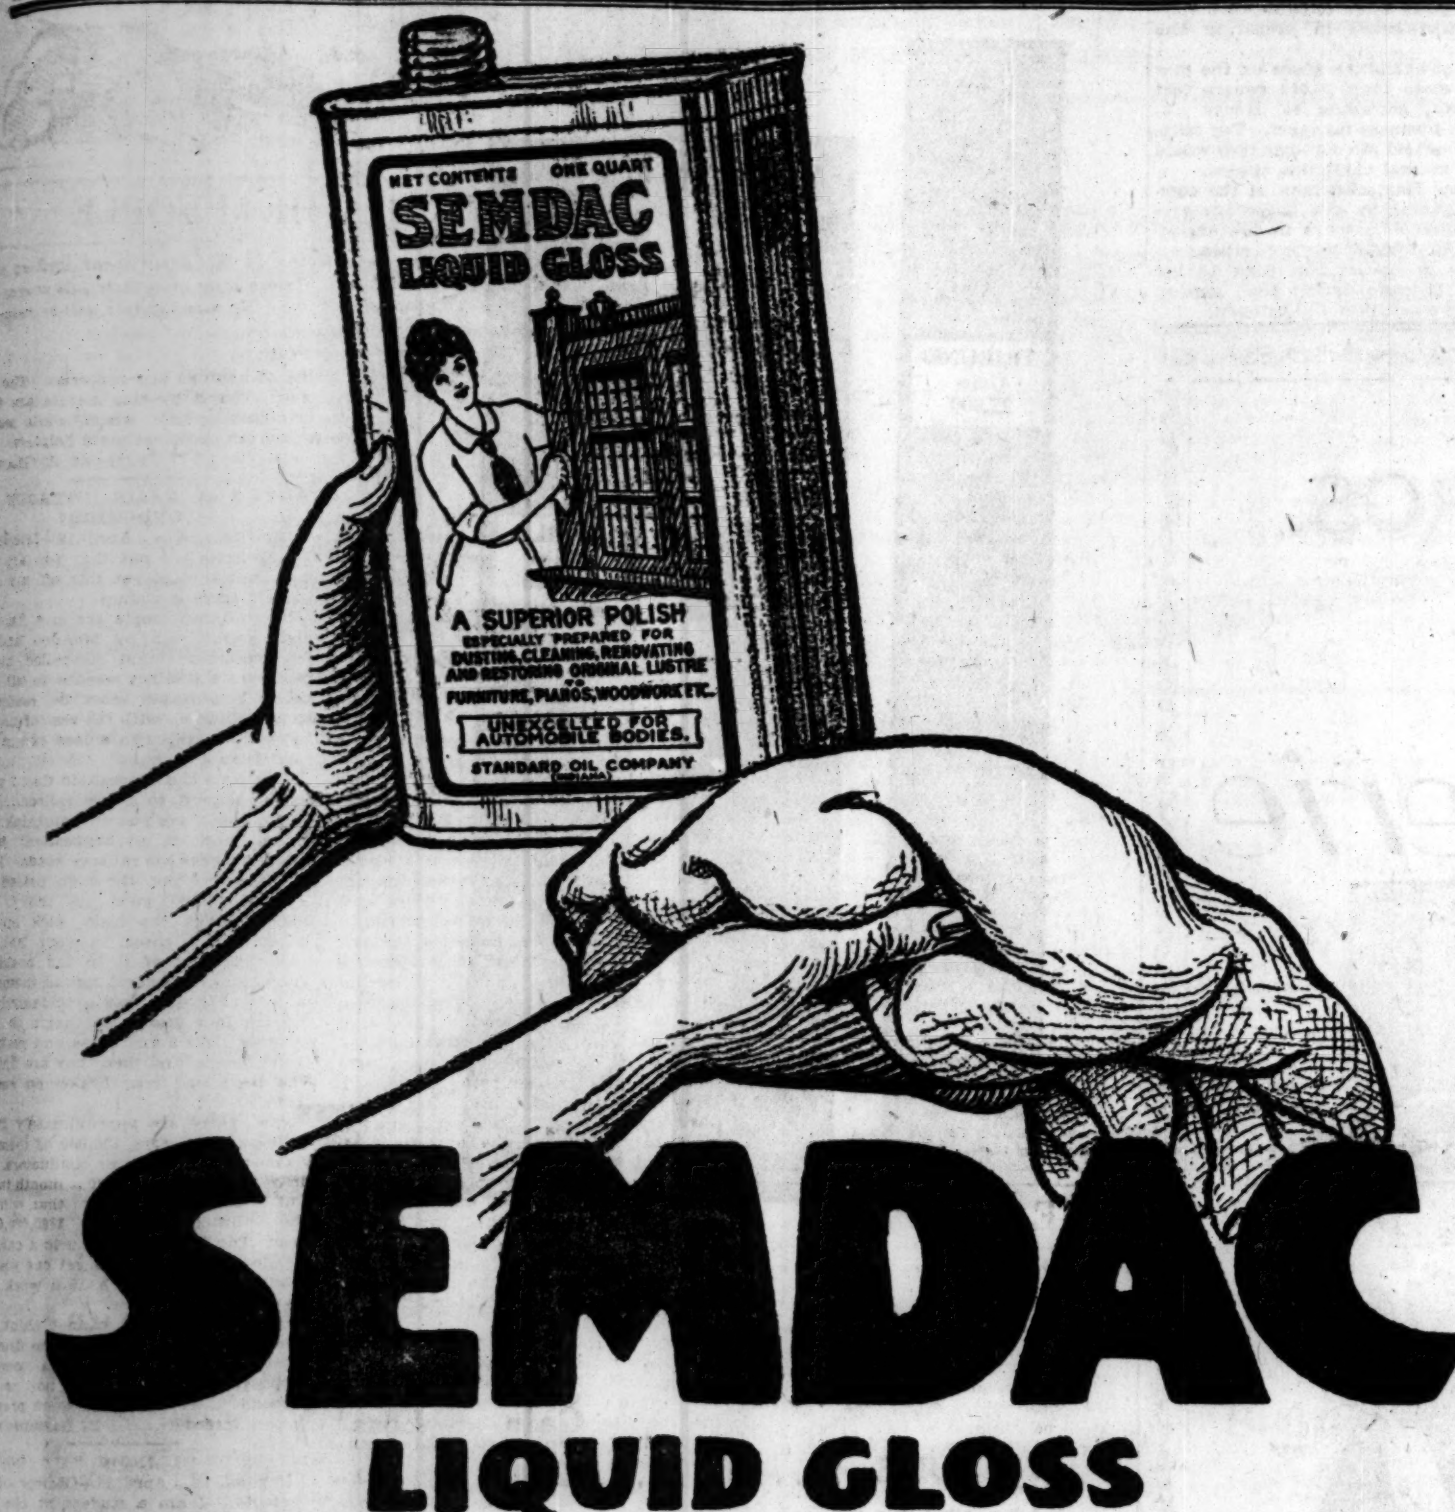

Neckwear, First Floor, Middle, State.

Third Floor, South, State.

## Canton Baskets, Special

Representing Interesting and Unusual Values at 35c to \$1.75 BASKETS which are decorative and useful, too, are indeed desirable for many different purposes.

These are made of rattan, with tops which fit snugly and are attractively decorated with colored beads, Chinese coins, rich silk tassels and bakelite ring handles. Five different sizes which fit inside one another may be bought separately or together. They are durable and extremely low priced.

## SEMDAC LIQUID GLOSS

TWO hands—a cloth—and Semdac—all you need to polish any finished surface. Semdac will take the drudge out of spring house-cleaning.

Pour a small quantity on a rag—a light rub—that's all there is to cleaning—when you use Semdac.

Cleans better than soap and water. Contains no acids or anything to check a varnished surface.

It polishes as it cleans. Chases finger marks off woodwork. Restores the original lustre. Finished surfaces glow for weeks.

There is a Heap of Satisfaction to Cleaning With Semdac—Your Work Shows

Use Semdac to polish furniture, woodwork, white enamel, floors, bathroom, piano, automobile bodies.

Semdac contains a full measure—8 oz. to the half pint; 16 oz. to the pint; 32 oz. to the quart; 64 oz. to the half gallon; and sells for 25c, 40c, 60c, and 90c.

For sale by grocers, druggists, furniture stores, hardware stores, paint shops, and garages. If your dealer hasn't it telephone Harrison 9200—Chicago Sales Department.

## PASTOR DRAFTS OWN CODE FOR "HEALTH WEEK"

Laugh, Don't Worry, Work, Are Some of His Rules.

BY REV. G. A. MAC WHORTER.

Chicago is to be congratulated upon the diligent way in which the Board of Health is urging the observance of health week, beginning today," said the Rev. Josiah Sibley in his evening sermon at Second Presbyterian church yesterday on "Things That Make for Health and Happiness."

"The people should cooperate in this good work by heeding the injunction to clean up their premises, to keep the flies out, and to keep the children away from contagious and infectious diseases."

### Gives Health Rules.

Here the pastor gave some health rules:

1. Happiness is more akin to health than most people realize. A real hearty laugh every morning is one of the best disease killers.

2. Do not worry. Worry and anxiety eat up vital energy and do no good. Worry never solved any problems or relieved any burdens.

3. Think wholesome and happy thoughts. The mind contributes much to the upbuilding or tearing down of nervous tissues and of bodily strength.

4. Read the great poems and the biographies of great men and women.

5. Be clean in mind and heart. The life of dissipation has its own price of deteriorated bodily vigor.

6. Rejoice in Hard Work.

7. Rejoice in hard constructive work every day. Work never killed any man.

8. Take regular exercise and recreation. Have good sleeping rooms and out of doors, and if you have no other means of recreation, walk. No man ever walked to his funeral.

9. Be moderate in eating. Overloaded physical systems and sedentary occupations without exercise are shortening the span of life after 40.

10. Make your home sanitary for yourself and your family. Clean up the premises. Keep out the flies. Keep your children away from contagious and infectious diseases.

11. Think more of somebody else than you do of yourself.

12. Do not fear anything. Let God and kindness rule your life.

13. Program for the Week.

The program for "cleanup" week is as follows:

MONDAY—Community cleanup day. Cleaning of homes, yards, vacant lots, alleys, and burning of rubbish.

TUESDAY—Fly, insect, and rat extermination day.

WEDNESDAY—Better baby day. Lectures at civic centers on the care of infants.

THURSDAY—Birth registration day. Parents who have not registered the birth of their children are urged to do so at once.

FRIDAY—School children's day. Health lectures and discussions in all public and parochial schools.

SATURDAY—Medical examination day. The purpose is to have people who haven't been near a physician for years take stock of their present physical condition.

## Matre & Co. Building Fire Will Be Investigated

Fire Attorney Shirley T. High announced yesterday that he will investigate the fire that damaged the Matre & Co. building, 76 West Lake street.

Victor G. Matre, owner, said the fire must have started from an oil stove on the third floor.

## Fail to Identify Two Mail Robbery Suspects

Witnesses to the \$500,000 mail robbery at the 12th street station failed yesterday to identify Leonard Banks and William Sharkey, who are being held at the detective bureau, as alleged members of the bandit gang.

## LARSON'S Sta-Right Shoes and Arch Supporter Correct Flat Feet

Larson's Sta-Right Shoes are made along scientific lines by a master craftsman. The arch is built up and the feet are duplicated into lasts and the shoes made over these lasts, thus practically over each person's own feet.

Fallen Arches Are Relieved Instantly

By wearing Martin Larson's Self-Adjustable Sta-Right Arch Protector for men, women and children. Fits smoothly inside the stocking and may be worn with your present shoes. \$10 pair.

Sta-Right Shoes to Measure, \$25 and Up

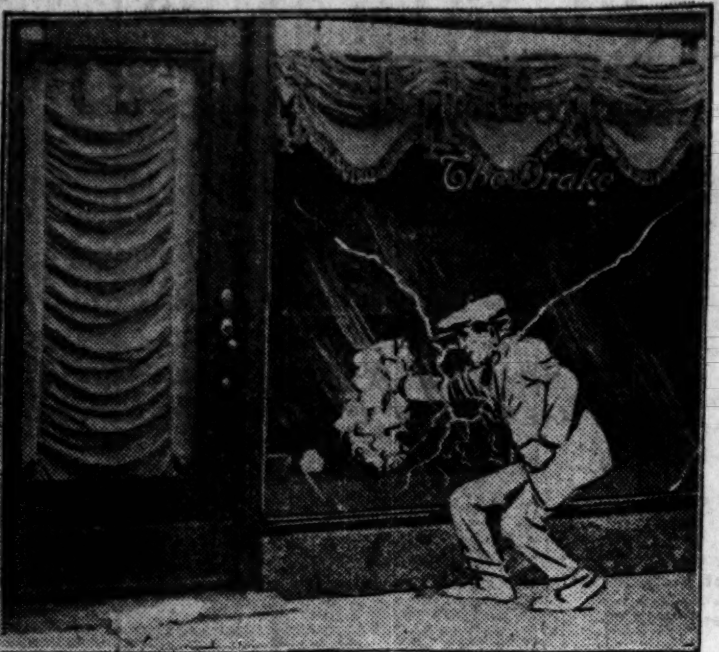

Plaster Casts, \$10

Martin Larson

369 W. Madison Street

At the Bridge

## An Unwelcome Caller at the Drake

Even the Drake hotel, with the army of porters, bellboys, clerks, and other attendants, is not immune from thieves. Somebody walking by yesterday paused long enough to break a window in the shop of Martha Weathered and made off with silks and satins valued at \$1,200.

(TRIBUNE Photo.)

CONDUCTOR FALLS; BREAKS SKULL. Isaac Ambrowski, 45 years old, 3611 W. 18th street, a street car conductor, sustained a fractured skull and internal injuries when he slipped and fell as he was boarding a car in Milwaukee avenue yesterday.

SAVING DRUNKEN HUSBAND BEAT HER. Mrs. Anna Stec, 30, 1517 West 14th place, was seriously injured yesterday. She said her husband, Frank Stec, came home "drunk as a rat" and without warning beat her with a stick. Stec was arrested.

## SUBPOENAS OUT FOR LABOR HEADS IN BUILDING QUIZ

"Mike" Boyle on List to Be Called Today.

Michael J. Boyle, business agent of the International Brotherhood of Electrical Workers local No. 134 and other labor officials drew the attention of the Daley joint legislative committee investigating the Chicago building situation yesterday, as subpoenas for them were prepared for service today.

That definite information has been given the committee which may lead to indictments in connection with the construction of one theater and one hotel building became known at Hotel La Salle, where the committee is staying while in Chicago. The evidence has to do with the alleged payment of \$13,000 in bribes.

Some Already Summoned. Some labor men who have refused to cooperate with the committee have already been subpoenaed and ordered to bring in the books of their organizations. The first of these, it is understood, will be placed on the witness stand this morning.

"We are awaiting the return of the two assistant attorney generals whom we sent to New York to learn from Samuel Untermyer the methods used

by the Lockwood commission there in getting the goods on Robert Brindell, head of the building trades council," Senator Daley said. "He was sent to Sing Sing in connection with the eastern building combine. We mean to go all the way and there is nothing like getting all the help we can."

\$3,000 Graft Paid to Union.

It was also learned that the committee has evidence to show that one union was paid \$3,000 outright in graft by a check. The legislators are convinced that the officials of the organization are guilty, but will make further investigation to ascertain whether all the members also are guilty.

## GOVERNOR PLANS STATE EXHIBIT AT PIER PAGEANT

Plans for a state exhibit at the Pageant of Progress exposition on the Municipal pier this summer will be taken up by Gov. Small on his return this week from his tour of inspection of Wisconsin roads.

Health Commissioner Robertson and Dr. C. St. Clair Drake saw the governor in Springfield last week and found him keenly interested in the exposition. Dr. Drake will go back to Springfield in a few days to work with department heads in preparing the exhibit.

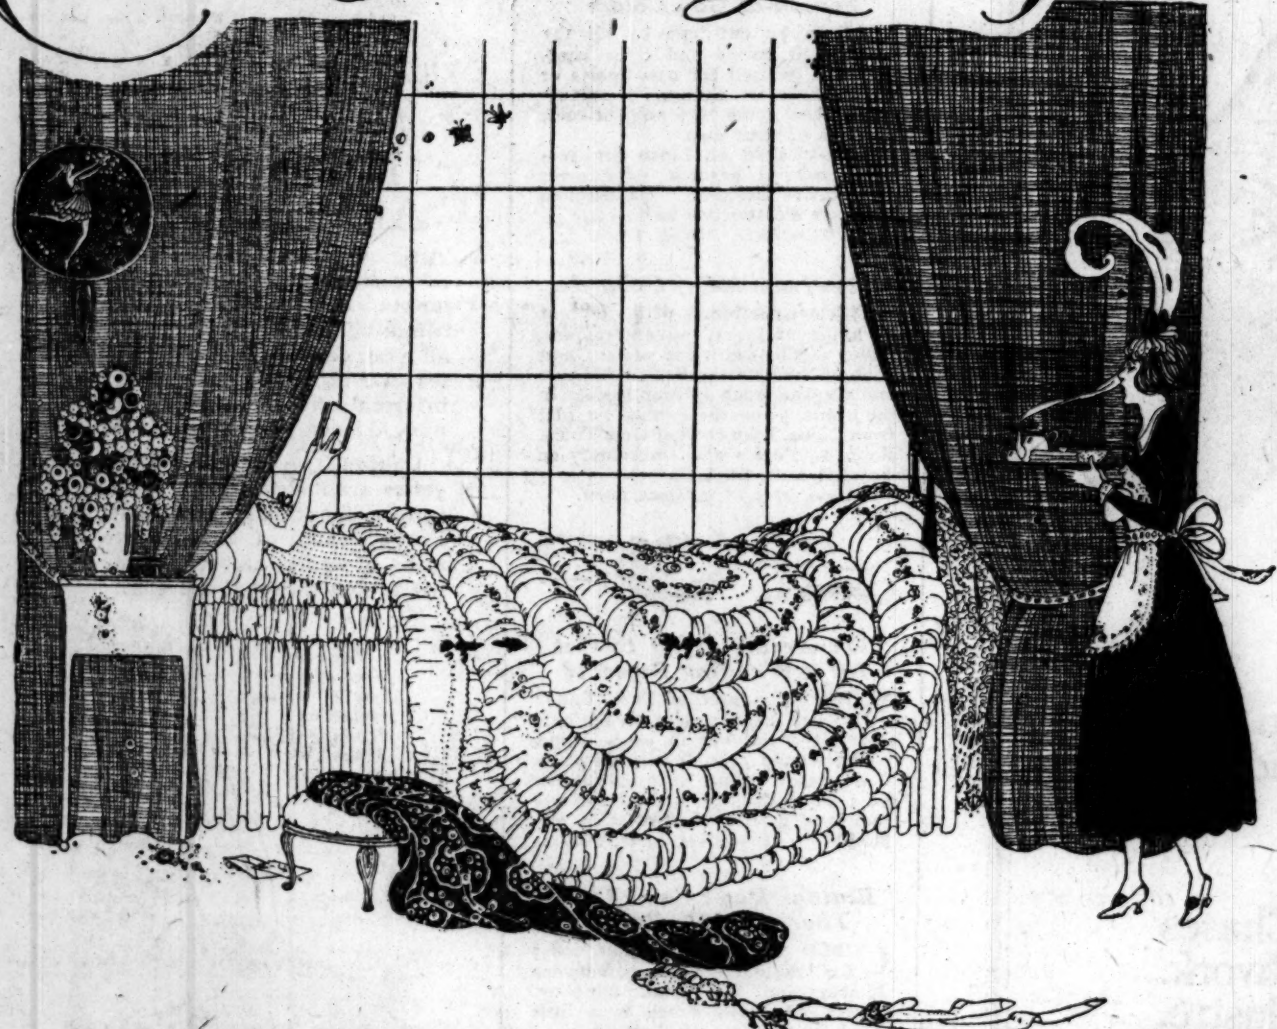

Sales of exhibition space on the pier totaled more than 22,000 square feet last week, according to Henry J. Kramer, business manager. Toy manufacturers told Mr. Kramer they would reserve several exhibition spaces.

Thomas Hay, chairman of the committee named by the mayor to promote automobile tours to the exposition from middle western cities, expects to bring not less than 100,000 cars to Chicago during the sixteen days the exposition will be open.

## CHAS. A. STEVENS & BROS.

A Complete, Exclusive Specialty Shop for Women

## Trousseau Lingerie

for the June Bride...

Ever associated with the choicest offerings of Chas. A. Stevens & Bros. is Trousseau Lingerie—and this year their Lingerie Shop gives even greater evidence of its leadership. The exclusive originations and adaptations in Lingerie and Negligees are developed in the most exquisite silk and linen materials and real laces that are the delight of the bride.

## The Rose Bud Set Nightrobe.. Chemise.. Drawers.

Soft, graceful georgette in delightful colors—light blue, orchid and flesh—and the daintiest of point lace and tiny rose buds are assembled to make this a most fascinating and lovely set. There is a nightrobe for \$17.50 and a chemise and drawers for \$12.50 each.

The Trousseau Shop—Lingerie Section—Third Floor.

## Lingerie...

Soft, shimmering and lovely is the Trousseau Lingerie. Besides dainty things of rare French handwork are exclusive originations of our own, both in matched sets and individual pieces. Fashioned of fine triple voile, lustrous panne satin, pussy willow taffeta and georgette, and enhanced with real lace and colorful flowers and ribbons.

## Accessories...

Worthy of a place only in the trousseau of a bride are these frilly feminine lacy caps and bed jackets—together with beflowered satin Mules.

## Negligees...

Breakfast Coats and Negligees that display rare artistry in their exquisite colorings and unusual design are noteworthy in this exhibition of Boudoir Apparel for the bride.

## \$10 PROVIDES A CONCERT FOR 500 PERSONS

Launch \$125,000 Drive  
for Chicago Band Today.

"Two cents per person will provide a concert to 500 people."

With this statement directors of the Chicago Band association yesterday announced the beginning of a campaign today to raise \$125,000 to defray the expenses of the Chicago band for the 1921-22 season.

The band, which is in its eleventh year, is known for its free concerts, and it is in civic and patriotic events. It has appeared in parks, playgrounds, schoolhouses, community centers, hospitals, and charitable institutions without charge, and always is highly appreciated. It has been a delight to the poor and hard working people who frequent the parks and community centers.

People Now Asked to Aid.

Through the medium of the Chicago band, William Well, conductor, Chicago, who cannot afford to pay for music has made the acquaintance of Last, Chopin, and Tchaikowsky, leaders of the movement declare.

"Not a patriotic celebration or big show event has taken place without the Chicago band," said Ward S. Perry, president of the association. "Never has the expense of the band's work fallen on those who attended and benefited by its music. Each year the expenses were paid in advance by the members of the association, so that the band has never failed Chicago or its people. Let us hope the city and the people will not fail the band now."

For one year's dues, \$10 a member automatically provides 500 persons with a free concert.

Open Campaign Quarters Today.

The association will open campaign headquarters this morning at 21 North La Salle street. The woman's council will be headed by Mrs. Charles E. Frankenthal. Among the workers will be:

Mrs. Harold F. McCormick, Mrs. Robert Hall McCormick, Mrs. Gertrude Howe Bittan, Mrs. Joseph G. Coleman, Mrs. Joseph M. Oshay, Mrs. Joseph Baur, Mrs. Alfred Decker, Mrs. Fletcher Dobson, Mrs. George W. Dixon, Mrs. Angus S. Hibbard, Mrs. Harry Pratt Judson, Mrs. Edward A. Leight, Mrs. Mary E. McQuinn, Mrs. Grace Wilbur Trout.

Men's Committee.

The men's committee includes: Nathan B. Orde, James H. Channon, Edmund J. Barry, Edward F. Hamm, Charles W. Folda, Benjamin F. Affleck, James D. Forgan, Harold E. Eaton, Ferdinand W. Beck, William T. Budd, Bernard F. Sauer.

The association has organized a band of volunteer "minute men," who will give short talks on the band before Chicago clubs and solicit their support.

## CO-EDS TO RING "WEDDING BELLS" AT NORTHWESTERN

In the near future several pretty co-eds at Northwestern university will figure in some marriage complications. One will get married, or nearly get married, to a man who already has a wife! But it will be only in fun. It will be in the play.

MISS NATALIE PURCELL  
(Photo E. L. Ray.)

MISS THELMA FITZWILLIAM  
(Photo J. D. Tolof.)

"Wedding Bells," to be presented by the Campus Players, the university dramatic society.

Miss Thelma Fitzwilliam, 1125 Davis street, Evanston, a senior, will take the lead. (J. D. Tolof Photo.)

ing role. She has had the leading roles in the majority of Northwestern plays during the last two years.

The part of Hooper, the lady's maid, will be taken by Miss Frances Keith of Des Moines, Ia., a junior.

Natalie Purcell, 1802 Wesley avenue, Evanston, who recently established a new woman's swimming record at the university, will play Thelma, an important role.

Youngest Burglar, 10, Is Taken with Robber Gang

Four boy burglars arrested yesterday confessed to the Maxwell street police they had robbed a butcher store at 1154 Desplaines street and secured \$300, while in another meat market at Taylor street and Ogden avenue they got only 50 cents. The boys are Vito Clone, 13, 623 West Roosevelt road; Sam Scolen, 10, 701 West Taylor street, Chicago's youngest burglar; Joseph Kamenczak, 15, 1133 South Jefferson street, and Arnold Amascola, 14, 602 West Taylor street.

Pacific Steamship Co. Institutes New Service

Seattle, Wash., April 17.—Withdrawal from the Mexican and Central American service and establishment of a new service between Portland, Ore., and ports south on the American Pacific coast was announced today at the general offices of the Pacific Steamship company.

TEN AUTOMOBILES STOLEN.

Ten automobiles were reported to the police to have been stolen during the twenty-four hours ending yesterday.

## SLIP BY SENATE MAY DELAY RAIL WAGE HEARINGS

Starts Today, but Board Lacks Three Members.

An oversight on the part of the United States senate may interfere with the hearings of the United States railroad labor board on wage disputes, which were to have started today.

The appointments of three members of the board to succeed those whose one year terms expired last week have not been confirmed by the senate. Until this is done the new members are not qualified to sit in at the sessions. Reports last night indicated both

the labor side and the rail executives will object to continuing the hearings until the board has a full membership.

Act Doesn't Cover Situation.

The section of the transportation act under which the railroad labor board was created makes no provision for holdover service of any member whose term expires, nor did it stipulate that the remaining members might act with full power. The parties to the wage dispute—nearly 100 railroads and their employees—therefore fear deliberations of the arbitration body as at present constituted may not be legal.

The board will consolidate the cases of all roads seeking to make reductions. All of the railways involved contemplate a cut in the pay of unskilled workers, and some of them ask blanket reductions for all employees. Each side, executives and employees, will be allowed eight hours to present its case.

Employees' Leaders Confer.

Heads of the thirteen employees' organizations concerned with the wage controversy were in session yesterday at the headquarters of the railway employees' department of the American Federation of Labor, 4750 Broadway. Officials of the four big brotherhoods met at the Great Northern hotel.

## HAMMOND MAKES ELECTION ISSUE OF 'BLUE LAWS'

Hammond, Ind., April 17.—[Special.]

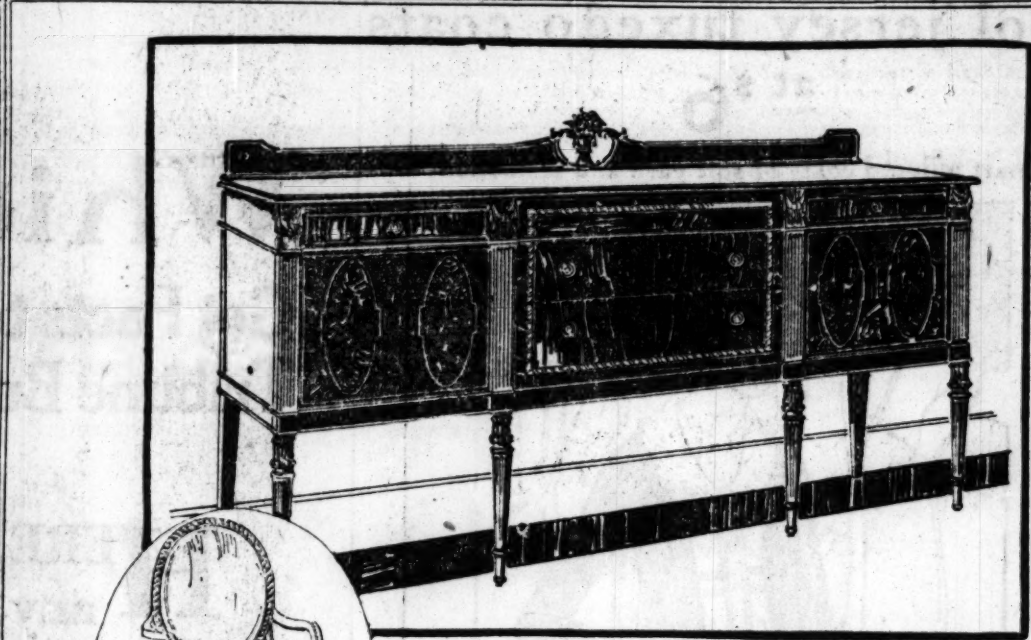

Now fire was added to Hammond's already overheated municipal campaign today when Sunday theaters, censorship of the movies, public dances, liquor law enforcement, and gambling were made issues in the primaries when the Woman's Christian Temperance union named committees to submit questionnaires to the mayoralty candidates. These they will have to answer properly to get the women's support.

Charles H. Frederick, former county sheriff, the opponent of Mayor Dan Brown, is viewed as a liberal. Brown has already signified his willingness to sign the questionnaire, which is considered a blue law pledge.

The women want the shimmy and the toddle barred from all public places. Mrs. James R. Graves is president of the local W. C. T. U.

FIGHT FIRE ON SHIP.

Seattle, Wash., April 17.—Fire Chief Mantor and three other firemen were overcome by smoke while fighting a fire in the forward hold of the Nippon Yusen Kaisha freighter, Tatsuno Maru, last night. Damage was estimated at \$10,000.

This illustrates the beautiful style of a 10-piece Dining Room Set of burl-walnut richly carved and paneled, now \$795.

## COLBY Furniture for Dining Room and Bedroom now at the new low price scale

Colby offerings never were more interesting from the standpoint of both value and artistic merit.

They demonstrate conclusively that uncommon furniture of real worth may be possessed by any home with marked economy.

Other distinctive dining room sets may be had at \$325, \$375 and up.

## Bedroom Furniture That Inspires Admiration

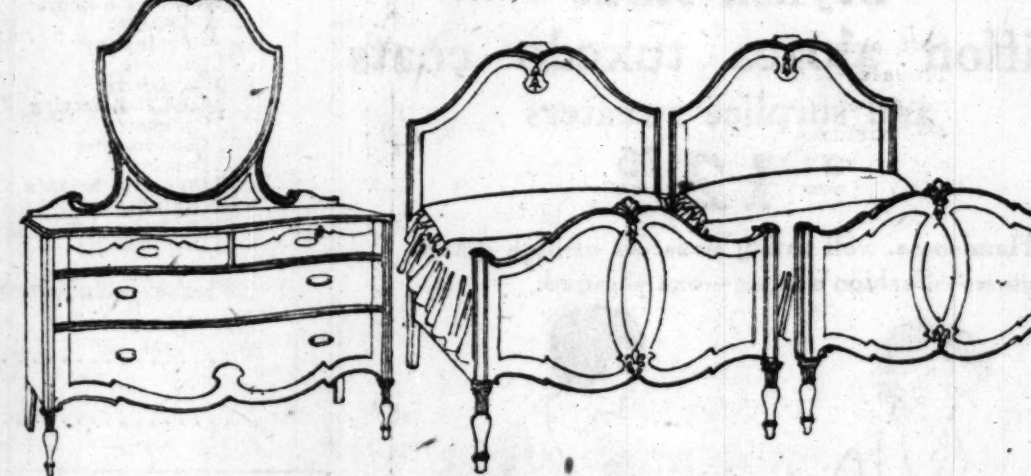

No other room in the house affords a better opportunity for the expression of comfort, refinement and individuality than the bedroom, and in no other type of furniture is Colby originality more marked.

Now, at the new low level of pricing, there is no reason why any home should be denied the distinction and character that Colby Furniture gives.

Unusually beautiful designs are available in authentic period and modern styles—mahogany, burl-walnut, hand-decorated enamels—sets priced at the new low-level scale from \$295 and up.

## Bedroom Set Illustrated

This set is of two-tone brown mahogany of wonderfully fine quality, comprising 8 pieces—pictured with the exception of the chiffonier, which, however, is included in the set.

We cheerfully welcome visitors, and offer expert assistance when desired without thought of obligation.

Liberal Allowance for Your Old Piano

# No Money Down

We will accept and make you a liberal allowance for your present piano, phonograph, or other musical instrument. You need pay no cash down, as we will accept your old instrument as first payment.

We make this remarkable offer because we wish to clear our floors of all odds and ends of Player-Pianos. All shopworn, slightly used and rebuilt Player-Pianos are included in this sale. Even though your income be a very moderate one—you can afford to have—and ought to have—in your home a Player-Piano. It is merely a matter of small monthly payments.

A GOOD USED OR REBUILT PLAYER-PIANO IS A MUCH BETTER INVESTMENT THAN A CHEAP NEW ONE.

A Player-Piano in your home means, sooner or later, our placing a beautiful instrument in other homes. Hence this special limited sale—at terms of only \$10 a month. But we simply cannot afford to hold this offer open indefinitely. It will shortly be withdrawn. If you want a superb Player-Piano—and who doesn't?—we advise you to come in or phone us at once.

## Free Trial!

These Player-Pianos are such great values and we are so sure we can please you that if you are not absolutely sure at the time of selection that you will be completely and permanently satisfied with your choice, we will gladly send a Player-Piano to your home for free trial and test, with the understanding that if it must please you or we will allow all you have paid to apply on any other instrument or refund your money. We have that much confidence in these Player-Pianos.

Call or Phone at Once! (Harrison 5511)

DON'T MISS THIS CHANCE! You can satisfy all your artistic longings and yet practice economy. Think of it! Only \$10 a month and at a great saving. Phone or come in at once.

## THE LOG OF A LOG OF SPRUCE, OR HOW TRIBUNE IS MADE

S. E. Thomason Tells of  
"The Business End."

The editorial forces of a newspaper—using the term in its broader significance—gather the local, domestic, and foreign news, write its editorial and feature articles, draw its cartoons, photograph and buy its pictures. And every night at 9:15 they hand all this material to the business side of the paper and say: "Here is your newspaper; get the paper to print it on and the ink to print it with, put some advertising around it, if you must, to get the money to pay for all this talent we've given you—print it and sell it. God knows it ought to sell—we've put good material into it."

S. E. THOMASON,  
Business Manager, Chicago Tribune.

### BY EYE WITNESS.

And so, as your mayor says—"and he it is!"

The why, the how, the when, and the where of that transition at 9:15 o'clock nightly—and twice again before dawn (this time take your material from the typewritten sheet and the wet photograph to the thirty-six page printed Tribune was Mr. Thomason's topic for the fifth of the lectures from the laboratory which are a weekly feature at the Medill School of Journalism of Northwestern university. He called his lecture "The Newspaper from the Forest to the Breakfast Table"—or, as he put it later with his customarily concrete touch, "the adventures of a spruce log from Bale des Cedres, County Saguenay, Quebec—just west of Labrador—to the Lake Shore drive, hothouse, strawberried breakfast or the Root street ham and peas."

### Trained to a Profession.

The case of Mr. Thomason of THE TRIBUNE shows how new, relatively, is this profession of the comprehensive business managing of a large newspaper. Those men have to think in the dimensions of forests nearly ten times as large as the District of Columbia and half as large as the state of Rhode Island. They have to think Canada and its labor supply, Germany and what it is doing in inks and new kinds of rotogravure paper, the American congress and its newspaper tariffs, Niagara Falls and its power possibilities versus scenic disarray. They have to think lumber gangs, camps, ships, wharves, railroads, cars, floods, and weather.

Mr. Thomason of THE TRIBUNE did not grow up in this spacious profession, for when he was growing up there was no such profession. He had to be trained for it, like a crown prince who, besides his languages and his soldiering and his diplomacy, has also to learn a trade or two or three, so as to be comprehensive.

Mr. Thomason was, and still is, a lawyer; also a university man. But how he got to be a magnifico of forests and ships and mills and a specialist in a thousand details of mechanism and finance was by binding as a 'prentice

## GOLDEN WEDDING OF COUPLE WITH HAPPIEST FAMILY

Mr. I. P. MIKITYNSKI, I. P. MIKITYNSKI (School photo.)

Mrs. I. P. Mikitynski claims to have the happiest family in Chicago. It consists of four children, six grandchildren, and one husband—and the last named, the husband, has held that job for fifty years. Tomorrow Mr. and Mrs. Mikitynski will celebrate their golden wedding anniversary at a high mass in the Holy Trinity church. A special musical program will be rendered. The "happiest family" lives at 1400 Fullerton avenue, where the celebration will be continued after services in the church.

hand in department after department of THE TRIBUNE for several years. The result is that he can talk authoritatively

turkey to the most sapient and the most distrustful class of craftsmen in the world—I mean printers and newspaper mechanics in general—and he can survey with equanimity and digest without pang thirty-six daily reports which cover everything from the amount of food consumed in THE TRIBUNE's camps "just west of Labrador" to the matter of the oil smeared or otherwise damaged TRIBUNE which Gertrude, the fastidious stenographer, had to place on her employer's desk on a certain morning duly dated and deposited to.

### Talks Only About His Job.

The man is as interesting as his job. For this, if for no other reason—he never storms. But he did not talk to the Medillians about himself; solely about his job, pointing out, among a multitude of other solidities in a close-packed discourse, some facts about THE TRIBUNE which even men who have written for it for years don't know, or only guess at. For example, exactly what proportion of what we write goes to the country?

Well, Mr. Thomason said that on a day when he and his print us 480,000 papers, something less than one-third (148,000) are delivered to country readers. Of the remaining 331,000 delivered in town something less than half go to homes. The rest are bought

Helping Thomason get the paper from the forest for us to write on it and to the breakfast table for you to read it are 2,600 men.

Selling 5 Cents for 2 Cents. He says it takes about a ton of coal and 1,500 pounds of wood to make a ton of paper and that the reason our mills are at Niagara Falls instead of "just west of Labrador" is that it is cheaper to carry the wood 700 miles to

the mills and the coal up from Pennsylvania and Ohio to the Falls than it would be to carry the coal "way up into the St. Lawrence country. How fully he has to figure things is shown by the fact that the cost of the wood haul is 50 per cent offset by the saving in carrying coal.

It takes 120,000 cords of wood and 80,000 tons of coal to make the 90,000 tons of paper we use every year. The manager in charge of making that product is in daily touch with Mr. Thomason, and, to put it another way, he sends us eight carloads of paper a day seven days a week. It costs 5 cents a pound, and that means that each 32 page copy of THE TRIBUNE you get is worth as blank paper 2 1/2 cents. We have put 2 1/2 cents' worth of writing and pictures on it by the time you get it. Result, 5 cents' worth to sell at 2 cents.

Mr. Thomason says his advertising men get out and bring in the other 3 cents' worth of business to pay for what you get and to leave something over for the baby's shoes.

Much Advertising Refused. At that, he refuses hundreds of

thousands of dollars' worth of advertising in a year. Once it was a "\$2,000 line campaign," as he called it, that he declined to take up because "it was for a chemical water-softener. Our advertising research department reported that grocers wouldn't be able to sell it because Chicago water is already soft enough. So we couldn't take that manufacturer's money because the failure would have been just as much ours as his. It would have been bad ethics and bad ethics is bad business."

So you see, Thomason is square as well as big.

### Council Urged to Name Street for Dr. Gunsaulus

"The city council should take action looking toward memorializing Dr. Gunsaulus by giving his name to some street, boulevard or park," said the Rev. Dr. John Thompson last night at the First Methodist church service in honor of the late Frank W. Gunsaulus. "He was one of the greatest intellectual and moral assets of the city."

## Mandel Brothers

Third floor features

## Wool jersey tuxedo coats at \$6

Smart tailored coats of soft yarn and fashioned

with pockets and braided girdle. A typically fetching model is illustrated. Third floor.

## GO-OP HUSBAND FAILS IN QUEST FOR WIFE NO. 2

So He Tries to Return to  
No. 1, 'Tis Said.

New York, April 17.—[Special.]—Herbert Thornton Andrews, broker, who married two women, came back to the city tonight. Late Saturday night he had left to search for Mrs. Esther Marie Tutnall Andrews, former Pittsburgh stenographer and wife No. 2. "I did not see Esther," he said, "and I do not know where she is. I expect to be down at my office tomorrow attending to my business. That's all."

In Greenwich, Conn., where the broker, in January last, married the stenographer, Prosecuting Attorney Thomas F. Walsh announced he would move for the immediate extradition of Andrews. Walsh said he wanted Andrews to answer charges of bigamy and perjury.

It is reported now that a reconciliation with wife No. 1, Mrs. Maude Augusta Haynes Andrews, is in prospect. The wife indicated she would not be hostile to overtures from her husband.

Attorneys for Mrs. Maude Andrews expect to serve a citation of the wife's divorce suit on Andrews this week, perhaps tomorrow. In the event that the process servers are unable to find the broker, service will be had by publication, they said.

The present whereabouts of wife No. 2 is a mystery. Inquiry at a hotel where the former stenographer was reported as staying disclosed no one registered under the name of Andrews. Mrs. Andrews admits she is still in love with her husband, though she is bringing the divorce suit against him.

"I love him," she said. "We were happy until Esther came into his life. We were poor and had to work together and sacrifice for each other. It was not until my husband began to make money that the trouble began. It was financial success that caused all the trouble."

### First Airplane Mechanic School at Chanute Field

Rantoul, Ill., April 17.—[Special.]—The first air service mechanic school in America opens tomorrow at Chanute field. More than a dozen courses will be given. Students are selected from various military units of the army. The enlisted personnel of the field at the opening tomorrow will number 750.

## DOCTORS FIND IN WAR CAUSE AND CURE OF 'SHOCK'

Different from "Shell  
Daze," They Say.

Cambridge, Mass., April 17.—Discoveries made by Dr. Walter B. Cannon of the Harvard medical school and other American, British, and French medical officers toward the close of the world war have brought forth new evidence regarding the cause and nature of the strange condition known as "shock," a condition that led to innumerable deaths in wartime and frequently has a similar result after accidents in time of peace.

"Shock, or wound shock, has long baffled the medical profession," Dr. Cannon said today to the Associated Press on being asked to describe his important work in France.

"This condition, which, by the way, should not be confused with shell shock, an entirely different phenomenon, usually develops some hours after a serious wound or accident.

A man in a state of shock usually lies perfectly quiet, his skin is cold and moist with sweat, his pulse is rapid and thready, his arterial pressure is much reduced, he breathes rapidly and superficially, and, although not paralyzed, he has little energy and his mind is dulled. He often complains of being cold and thirsty.

"Some doctors held that shock resulted from nervous collapse, others that it came from a clogging of blood vessels by fat from wounds, some that it was due to paralysis of the nerves controlling the arteries, others that the adrenal gland was somehow affected, and so on.

"Our work in France gave us opportunities to study shock in the utmost detail. One by one we threw out the theories advanced in former years.

"We finally tested and established the fact that the condition results from the tearing or crushing of muscles or other tissues by missiles moving with terrific velocity. The damaged or dead tissue soon becomes toxic—acting like a sort of poison. This toxin causes an increased permeability of the smallest blood vessels, the capillaries, and thus there is lost through their walls quantities of the fluid portion of the blood which should be in circulation. The result is somewhat similar to that of great loss of blood from the body.

"Toward the end of the war we had learned much about methods of treating such cases, finding that it was helpful to keep the patient amply warm, to give him quantities of water, and if necessary to transfuse blood into his system from somebody else's."

## CHAS. A. STEVENS & BROS.

A Complete, Exclusive Specialty Shop for Women

## Accessories of Quality

### Chiffon and Sheer-Silk Hosiery

For the charm of the slim, silken ankles her hosiery must be the best, of course—whether plain or of dainty lace. There is a limited exclusive selection of styles among our recent arrivals that will delight those who appreciate fine quality and workmanship in hosiery.

Sheer weight Hose with lace designs—some with front patterns and others with wide, elaborate side clockings for formal and semi-dress wear, in black, white, brown and gray, are \$8.50.

McCallum sheer lace boot Hosiery in net effect is undoubtedly the season's favorite. Black and gray. \$7.50.

Chiffon silk Hosiery with narrow lace clocking adds a note of simplicity and refinement to the street and dress costumes. \$7.50.

Chiffon weight Hosiery, made by McCallum, of their finest quality silk, is of firmer and more even weave than the average sheer Hose. Black and colors. \$5.00.

Sheer-silk Hosiery of the popular chiffon weight in black and the new leather shades are \$2.95.

Hosiery Section, Main Floor.

### New Gloves

One of the most important factors in the correct ensemble is Gloves. Have you seen our new buckle Gauntlets (illustrated)?

Women's buckle Gauntlets. In excellent heavy silk with strap wrist and buckle with contrasting embroidered backs, in white and colors. \$3.75.

Kayser 16-button length silk Gloves in white, pongee, mastic, gray, brown and beaver with Paris point or embroidered backs are \$2.50 and \$3.25.

Kayser 2 clasp silk Gloves of excellent quality in white and colors are \$2.00.

Glove Section, Main Floor.

### Tricot Silk Undergarments

The excellent wearing quality and lovely smooth softness of Tricot and Italian silk Undergarments commend them to the particular woman.

Tricot silk Vests in pink, as illustrated, have tailored tops or ribbon shoulder straps. \$2.50.

Tricot silk Bloomers in pink with elastic at waist and knee are \$3.50. Extra size, \$4.00 and \$4.50.

Tricot silk Union Suits in pink with tailored band tops or ribbon shoulder straps are \$5.75.

### Kayser Italian Silk Underwear

Italian silk Vests, fancy lace trimmed and shirred, in white and pink. Bloomers and drawers to match. \$5.75 to \$9.00.

Kayser Italian Silk embroidered Vests with French band tops or ribbon shoulder straps are \$4.00 and \$6.50.

Kayser Italian Silk Vests, Bodice top with ribbon shoulder straps in jade, corn, orchid and pink, \$4.00.

Kayser Italian Silk Bloomers, knee length, in spring shades—Harding blue, platinum gray, brown and emerald, \$4.75.

Knit Underwear Section, Second Floor.

### Topless Corsets

Laced-in-Front and Laced-in-Back Models

Before planning your new wardrobe, let us choose and fit your new Corsets. The newest models presented by the latest vogue are topless with very little boning, and cleverly placed inserts of rubber at the top or under the bust.

Whether your Corset choice be a Gardenia (laced-in-the-front) or laced-in-the-back, we have just the model your figure requires.

Two models sketched:

1. Gardenia (laced-in-front) topless model for medium figures. Long, straight skirt and extremely flat back. Elastic band across the entire top, assuring the correct foundation for smart fitting frocks. Dainty pink brocaded satin, beautifully finished, at \$16.50.

2. Stevens special model—the merest little wisp of a corset of exquisite pink satin broche. Elastic inserts at the top and most pliable boning. Price \$10.00.

A Varied Assortment of Topless Models  
from \$3.50 Up

Corset Section, Second Floor.

### Fashion's Footwear Gallery

The Bandette

Twelve-fifty

Black Satin Slipper  
for Afternoon Wear

Displayed for the first time—this new creation in black satin, with dark gray kid bands and instep straps. Taupe hose should be worn with this style.

Stevens' styles are strikingly new and exemplify dignity in design. They bear that marked distinction of correctness demanded by women quick in style perception.

Hosiery to Match.

Mail Orders Filled.

## TUFTS HAS REAL NINE BUT UMPS NEED GLASSES

BY JAMES CRUSINBERRY.

Princeton, N. J., April 17.—(Special.)—Some of the smaller and less known colleges of the east are playing just as good a brand of baseball as the teams of the "Big Four," but seem to have difficulty in convincing some people, including the umpires, that such is the case. In a close game the little fellow is liable to be nosed out by getting the bad end of a close decision or two.

One of the lesser lights in the east is Tufts college, which this spring has put out a ball team of marked ability. Tufts battled Princeton Saturday and lost in ten innings, 5 to 4, though it should have won the game hands down because of superior batting.

**Decisions Lose Game.**  
A couple of the worst decisions I have seen in some time took one run away from Tufts and gave one run to Princeton, and though the Tufts fellows protested on both occasions as vigorously as they dared and still retain their college sportsmanship, it did them no good. They had to take their beating, and Princeton was saved from some humiliation.

Undoubtedly Princeton underrated its opponents, for one of the freshmen pitchers was sent to the slab for the Tigers, apparently with the idea of giving him a bit of experience in an easy game which his team mates would win with no trouble. But the Tufts boys were too much for the Princeton freshmen, and Princeton should have been beaten handily if not a sturdier hurler prepared and rushed into the fray.

**Tufts Scores in First.**  
Right in the first inning the Tufts fellows showed their strong attacking power. With one out, Loud slammed a single to left, and Callahan, one of the best of the Tufts players, followed him the hit and run play, then poked a single to right that sent Loud to third. It was a nice bit of offense and staged with some style. The man on third scored with the single, and the Tufts boys were then White drove a vicious smash just inside third base that caromed off the Princeton third baseman's grasping hand for a two-bagger. Tufts had two runs and Princeton realized a regular pitcher was needed.

The youngster started the second inning, however, after the Tigers had been blanked in the first attack and with one out Roche of Tufts slammed safely to right, then stole second. The next man died on a tap to the pitcher. Roche staying at second, but Capt. Fallon drove a wily center, and Roche legged it for home.

**Called Out at Plate.**  
It looked so easy for him that he didn't even slide. The center fielder made a peg for the plate, and the Princeton catcher grabbed the ball and made a backhanded swing at the runner as he sprang past. After I had marked the fellow as scoring I discovered the ump had called him out, claiming the man had been tagged on the leg as he came in. It looked pretty bad. Of course the Tufts man should have hit the dirt, and then the ump would hardly have dared call him out.

However, a few minutes later something about as daring was decided. In Princeton's second inning, after two were out, "Bud" Weiser singled, Berg singled, and the pinch hitter, Gorman, batting for the young pitcher, singled, sending "Bud" home and Berg to third. Then Gorman and Berg at- tempted a double steal. Callahan, the Tufts catcher, took a look at the man at third, which stopped him, then slapped the ball to second baseman Loud and headed off Gorman, who pulled up and stopped ten feet from second.

**Decisions Tie Score.**  
Loud dashed after him, apparently tagged him just as Berg decided to race home from third, but Gorman, though apparently tagged for the third out, circled at least six feet inside of the base line, running clear around Loud and getting to second base. Even if he hadn't been tagged it was apparent he was out for running out of line, and it all happened long before Berg was home from third.

The Tufts fellows all started in as if the inning were over and the ball was tossed on the ground at the pitcher's mound before it was learned the umpire on the bases had called Gorman safe at second, which of course permitted Berg's run to count and tie the score.

**Tigers See Ump's Fails.**  
The decision was so bad that even the Princeton boys scoring in the grandstand deplored it. But it let Princeton tie the score and then with a stronger pitcher on the mound the Tigers finally won.

One thing was sure, both umpires were having an awful bad day, at least.

Tufts is coached by Mr. Nash, who once was a star at Brown. He has sixty candidates for the team in early spring and seems to have sifted them to twenty fellows of some ability.

Keeffe, Morrell, Weiser, and Hawthorn are strong pitchers and Callahan is one of the best of catchers. Kiehrstin, Loud, White, and Captain Fallon form a good infield. Roche and Finnegan are outfielders and one of the pitchers plays the other field. The team has hitting strength, but needs more speed.

**Cravath Coming East on Hunt for Major Surplus**  
Salt Lake City, Utah, April 17.—Manager C. C. Cravath of Salt Lake left tonight for Chicago, Pittsburgh, Philadelphia, New York, Boston, and other major league cities on a hunt for ball players, with orders to remain away as long as necessary and spare no expense. Byrd Lynn, catcher, will be in charge of the club during Cravath's absence.

**TRAVERSE CITY HEAD COACH.**  
Bloomington Ill., April 17.—Waldo M. Spruell, a graduate of Illinois Wesleyan university, today was appointed athletic director and coach in the high school at Traverse City, Mich.

## VETERANS AT TOP SEASON FORM

WALTER JOHNSON.

CARL MAYS.

Washington pitcher tightens up in the pinches and then winds a hefty club, carrying Athletics down to defeat.

New York pitching ace swings a mean whip and blanks Red Sox, his former mates, by holding them to four singles.

## FARM and GARDEN

by Frank Ridgway

PLANTING SOY BEANS.

IN communities where the soy bean is being planted this spring for the first time, many farmers are puzzled over the various requirements of this crop. It will grow on a variety of soils. Soy beans will withstand a great deal of moisture and yet they are decidedly resistant to drought.

Prepare the land just as you would for corn. Fertilizer is not needed where the land is fairly rich. An application of a half a dozen loads of manure or 150 pounds of acid phosphate to the acre will produce good and profitable returns. The soy bean plant gets nitrogen from the air through the aid of nitrogen gathering bacteria in the little nodules or raised places on its roots and therefore seldom needs an application of commercial nitrogen fertilizer.

Farmers are much surprised to find that soy beans do fairly well on sour soils where the growth of red clover and alfalfa is greatly handicapped. An application of lime on poorly drained acid soils will be worth while.

Those who are planting soy beans for the first time are usually advised to inoculate the seed before planting. This is essential where the beans are planted on poor soil, but if the soil is fertile inoculation is not always recommended, while in sections where the crop is being newly introduced farmers get good returns by using the artificial inoculation material regardless of the kind of soil.

The beans may be planted along with the corn and hogged down in the fall. Where it is planted alone the seedling should be delayed about ten days after the average time of planting corn. A fine seed bed is needed in order that the seed may be covered uniformly with about two inches of soil. Use about twenty pounds of seed to the acre where the crop is being grown for seed or about seventy-five pounds of seed drilled or broadcasted if the plants are to be harvested and cured for hay.

**PRINCETON WINS AT POLO.**  
New York, April 17.—Princeton defeated Harvard 4 goals to 4½, in the final of the intercollegiate indoor polo championship here last night.

## RUY LOPEZ VARIATION USED BY LASKER, BUT 12TH GAME IS DRAW

HAVANA, Cuba, April 17.—In opening the twelfth game of the international chess match here, Dr. Lasker selected a Ruy Lopez, which he followed for eight moves, after which the German master varied by retreating his bishop to its original square. Instead of exchanging it for the black knight.

At the fifteenth move, Dr. Lasker decided upon a complicated continuation, which, while it left Jose Capablanca with an extra piece, enabled him to exchange both of his own knights for the Cuban's two rooks.

**Exchange Their Queens.**  
The outcome of this highly interesting combination was that Dr. Lasker was left with two rooks and a bishop, as opposed to four minor pieces, there being also queens and pawns on the board.

The position was so unusual and difficult that Capablanca consumed a whole hour determining upon his course when studying his twenty-third move. Queens were exchanged after twenty-seven moves and a number of pawns exchanged.

When after thirty moves, play was adjourned Capablanca still had his four minor pieces against two rooks and a bishop, but only three pawns to his opponent's four. The outcome then was extremely problematical.

**Game Declared a Draw.**  
The game was declared a draw to-night when Dr. Lasker unsealed his thirty-first move, and Capablanca offered a draw, which Lasker accepted. There will be no game Monday night. The match, by plays:

LASKER (White). CAPABLANCA (Black).

# CARSON PIRIE SCOTT AND COMPANY

Special sellings are in progress, bringing fresh, new, seasonable merchandise. The needs of the home, at this time of the year, apparel for spring and summer. Moderate pricing and superior quality make of every selection an investment truly worth while.

## Fur Wraps New Spring Modes

Capes and wraps in the short or longer lengths of gray caracul, sometimes with fox or natural squirrel, mink, summer ermine or mink.

### Remodeling of Furs—

This section is already completely equipped in the matter of new styles and favored pelts for next fall. Very special pricings now prevail on all work.

Fourth Floor, North.

### A Section Exclusively Devoted to Presentation of

## Black Apparel

A fine sense of style and appropriateness has gone into the selection of this apparel.

Whether they be designed for mourning wear or to meet the increasing vogue for black costumes, these modes are assured success.

Suits, wraps, blouses, separate skirts and other accessories of dress may be chosen here—with certainty of their style correctness.

Fourth Floor, East.

## "Lavender Top" Lisle Hosiery For Women

Fresh new assortments just come bring this always wanted "lavender top" hosiery.

The lisle is mercerized. The hosiery full fashioned, having double toes, heels, and soles. Excellent value, priced

At \$1 Pair

First Floor, North.

## Babies' Frocks and Rompers Combine Charm, Practicability and Economy

Typical of this most unusual section, where are assembled little garments to clothe baby from head to toe in the smartest fashion at a moderate expenditure.

**Two-Piece Gingham Frocks with Hand-Stitching, \$3.95**  
The fine quality and care in making are proved in tubbing and service. In green, rose, orchid and blue. Sketched at the right. Sizes 2 to 6 years, \$3.95.

**"Peg-Top" Sateen Rompers, Entirely New, \$1.95**

In black with bandings of bright colored crash. Mothers will instantly see that these rompers solve many problems in baby's appareling. The blouse and rompers are entirely separate, which simplifies laundering.

Third Floor, North.

## Tailored Suits, At \$95

### In Favored Modes For Women and Misses

If a spring suit is still to be chosen, this group offers exceptional opportunity, both as to variety and pricing. No favored mode is lacking in

*Suits with Box Coats  
Suits Plainly Tailored  
Belted and Flaring Suits*

Embroidery, braiding, are applied with a sense of the value of garniture in tailored modes. This important feature is especially noted in the suits for women in these groups.

Hand-embroidery, steel nail heads and a fringed sash distinguish the woman's suit sketched directly below.

A misses' suit of tricotine, which is exceedingly well tailored, has panels of embroidery done in heavy silk thread. Not in the sketch.

Fourth Floor, North and South.

## Women's New Frocks, \$85 For Summer Evening Occasions Emphasize the Vogue of Chiffons

As evening occasions take on a more informal air with the approach of summer, the marked favor accorded to chiffon frocks is more pronounced. Here are such frocks in delightful versions—rather simple, graceful frocks delightful in color and interestingly priced.

### Women's Dinner Frocks of Chiffon Are Lovely With Embroideries in Silver Threads

They have the favored neck-line—high in back. The colors are exquisite—jade, pearl gray, sunset—all encrusted with silver. The foundation is of flesh-colored satin of a beautiful quality. This frock is sketched above at the left.

### Misses' Chiffon Frocks Have Graceful Skirts, All of Handkerchief Pointed Panels

This is a winsome dancing frock indeed. The round décolletage and wide sash are delightful details. This lovely frock may be had in coral, jade. Sketched at the right.

Another frock at this pricing, in the same lovely colors, has the flowing bell sleeves much in vogue. Not sketched.

### Women's Beige-Color Lace and Chiffon Dinner Frocks Are Moderately Priced at \$75 and \$95

Fourth Floor, North and South.

## Swiss Organdy Flower Tinted, 85c Yard

Fine in texture. With the finish that retains a beautiful luster. 45 inches wide.

**Tissue Gingham, 85c Yard**  
Daintily fine fabrics are these in plaids, in stripes and in checks. 36 inches wide.

**Imported Japanese crepe, 27 inches wide, in a variety of colors, is 45c yard.**

**Lovely Voiles, \$1 Yard**  
36 inches wide—in checks, in stripes and in effective plaids. Their quality is exceptionally fine.

Second Floor, North.

## In Silks—Every Lovely New Weave Favored This Season and All at Prices of Special Interest

Exquisite silks, providing the means for the smartest of fashions. Fresh and new, for almost daily shipments arrive. Price advantage there is, too, in selections made here, and always that surety of high quality for which silks here are so well known.

### Baronette Satins, \$3.50 Yard

A fabric much desired for the making of summer outdoor costumes. 40 inches wide and may be chosen in colors and black.

At \$2.50 Yard—

Checked silks, 36 inches wide. In medium and small sized checks of varied colors.

At \$3 Yard—

36-inch chiffon taffetas in beautiful plain colors and two-tone changeable colors.

### Printed Foulards and Radium Silks, \$3.50 Yard

There is variety in colors, variety in designs of the printed silks, and all are of a quality not often found in silks at \$3.50 yard. A splendid collection at this price.

### A Special Group of Fine New Black Silks, Low-Priced at \$3.75 Yard

Here are the silks for most successful interpretation of spring styles. 40-inch plain black satin crepe meteor and 40-inch plain black satin charmeuse, just 2,000 yards in this group at \$3.75 yard.

Second Floor, North.

## Lovely Silken Undergarments In Tailored Styles, or More Elaborate

Women who demand the utmost daintiness and charm in undergarments, and still prefer to adhere to a program of economy, find their wishes met in these undergarments. They are of crepe de Chine—

**Lovely Underbodies, \$1.95**

**Trousseau Crepe Bloomers Are Priced at \$3.95**

**Tailored Night-Dresses, \$5**

The bodies have fine Calais laces and real fillet medallions. The bloomers have laces in Valenciennes patterns. Both are sketched at right.

The tailored night-dress is in a lustrous quality, charming in this fashion. Sketched at left.

**Tub Satin Petticoats, \$4.75**

They are an answer to the demand for a tub petticoat, smart to wear under any type of frock. With double front and back panels. In flesh-tint and white.

Third Floor, North.

## Smart Wraps, At \$125

### And the New Coats For Women and Misses

Such wraps and coats are much sought for their practicalness—a bit more formal than the utility coat, yet never too elaborate for street wear.

*Of Rich-Toned Fabrics  
In Graceful Cape or  
Straight Coat Lines*

They achieve unusual distinction from their rich colorings, the skillful application of embroidery. The capes are in the longer length. Coats have the tuxedo fronts.

A woman's coat sketched below is of velveteen with embroidery and facings in charming color combinations.

A misses' cape is of Marvella with insets of satin, beautiful hand-embroidery, and a smart new collar. In navy blue, tan, ostrich. Not sketched.

Fourth Floor, North and South.

## Delightful New Hats

### Meet the Requirements of Every Occasion

That each type of costume finds its smart complement in this collection of hats evidences an unusual understanding of this season's social calendar.

*Moire and Straw Combinations Are Charming  
Navy Blue and White Ever a Smart Combination  
Brown and Black Lace Increase Their Decided Vogue*

Here are hats in the newest and most approved version of the above mentioned fashion themes as well as the much-favored sailors. And garden hats fairly laden with loveliest of flowers.

Priced at \$18.50 to \$35

Fifth Floor, South.

## Fine Velour Cloths at \$4.50 Yard The Weave and Weight for Spring Wraps

This velour cloth is 54 inches wide, soft in finish and of the texture that falls gracefully into the lines of this season's coats and wraps. In tan, brown, navy blue and black.

**Imported skirting fabrics,** navy blue with silk stripes or plaids, light in weight yet firm in weave. 52 inches wide.

**Imported French suitings** in twill weaves, checks and stripes. Excellent also in tans and grays. 44 to 52 inches.

At \$6 yard, Poirer twills and tricotines, 54 inches wide, in varied shades of navy blue and in black. All-wool and a remarkably fine quality at this pricing, \$6 yard.

54-inch wool plaid skirtings in tans and navy blues, particularly adapted to the making of separate pleated skirts. \$4.50 yard.

Second Floor, North.

## Charming Silk Breakfast Coats Unusual in Quality, Unusually Priced, \$8.95

These breakfast coats represent the utmost in charm and in value-giving. How very exceptional they are can only be judged upon seeing them. The sketch shows the style—in

*Lovely Pastel Tints  
And Darker Iridescent Shades  
Unusually Well-Fitted  
And Exquisitely Trimmed*

They combine every quality necessary for the making of a desirable negligee. The satin is a soft, supple quality which seems to fall naturally into the graceful lines so desired.

Not for some time, we believe, have such negligees been so low priced.

This selling presents an opportunity to select a lovely silk negligee for leisure hours during summer.

Third Floor, North.

## Little Boys' Tub Suits at \$3 In Fresh-looking Fabrics, Carefully Made

These are just the suits that mothers like to choose in quantity for little lads of 3 to 8 years. And at this pricing an entire summer supply may be bought with definite economy.

There are clever little touches in collar and pockets. Workmanship is of the sort seldom found in suits so low-priced. In navy blue, cadet blue and green.

Second Floor, South.

## Sheffield Silver in a Very Remarkable Sale

Pricings are lower than any noted in some time for Sheffield silver of this very fine quality. Assortments are extensive, varied, and include all those practical service pieces for which there is constant use. This sale also affords excellent opportunity for the anticipation of gifts.

### Group 1—\$7.50

—Sheffield silver bread trays  
—Sheffield silver fruit bowls  
—Sheffield silver cheese and cracker dishes  
—Sheffield silver fruit compotes  
—Sheffield silver sugar and creamer trays

### Group 2—\$10.50

—Sheffield silver water pitchers  
—Sheffield silver cheese and cracker baskets  
—Sheffield silver hot roll baskets  
—Sheffield silver sugar and creamers  
—Sheffield silver cake baskets

Pyrex-lined casseroles and many other pieces as well are included in this sale in either of the two groups. These are in bright or burnished finish, in pierced or etched patterns. Several articles are sketched above. Values in each instance are exceptional.

First Floor, South.

## Society People Don

## Tinsel of Stage to Aid Boys' Shelter

"HE SAID AND SHE SAID," by Alice Gertrude, "The Person in the Chair," by Mrs. Howard Van Doren Shaw, and "Ope-Me-Thumb," by Frederick Fenn and Richard Pryor, will be given by the studio players at Miss Grace Hickox's studio in the Fine Arts building Thursday evening for the benefit of the Boys' Shelter club of Allendale. Mrs. Russell J. Mathias is in charge of the benefit, assisted by Mrs. E. S. Noyes, Mrs. Frederick D. Montgomery, Mrs. Evan Evans, Mrs. Archibald T. Naugle, and Mrs. Frank Peckham. Taking part in the plays will be Mrs. Frank J. Graham, Mrs. W. J. Jarrett, Mrs. McClelland Barclay, Mrs. Rachel Desobres, Miss Marjorie Murphy, Miss Marion Ware, Miss Gloria Chandler, Miss Emily Taylor, Harold E. Simonds, Walter M. Manning, James Lee Hobberd, and William Ziegler Nourse.

Among the boxholders for the concert to be given tonight at the Ballroom by Joseph Hislop for the benefit of the Scottish Old People's home are Charles G. Dawes, James Simpson, William J. Chalmers, Louis F. Swift, Robert P. Lamont, Edward F. Carr, Solomon A. Smith, Thomas E. Wilson, D. Mark Cummings, James B. Morgan, J. Ogden Armour, Harold F. McCormick, John Crenar, Robert Sturges, John W. Scott, John A. Spoor, Mrs. T. B. Blackstone, Alexander H. Revell, Marshall Field III, John H. Hardin, James A. Patten, and Eugene J. Buffington. Three boxes have been reserved for the aged men and women of the home, who will be conveyed from Riverside to the theater in automobiles loaned for the purpose.

Mrs. William E. Casselberry and Mrs. Catherine Casselberry of 1245 East street will remain abroad until the last of May.

Mr. and Mrs. Leslie S. Gordon of 174 East Superior street have returned from a visit at Hot Springs, Ark.

Mrs. Chauncey Keep of 1292 Lake shore drive is spending a fortnight in the east.

Mrs. Henry A. Blair and Miss Anita Blair of 2745 Prairie avenue will remain in California until the late spring.

Mrs. Otha P. Ball and children, Betty and Peter, of 1305 Ritchie court, will go to Hot Springs, Va., early in June for a three months' stay.

Mr. and Mrs. E. J. Doring Jr. of 915 North Dearborn street have returned from a several days' visit at their summer residence at Lake Geneva.

Mrs. Sydney Miller and her daughter, Miss Dorothy Miller, of Highland Park will spend the summer in Europe.

Mrs. Edward Hines and daughter and son, Loreta and Charles, of Evanston, have returned from a three weeks' stay at the Virginia Hot Springs.

Mrs. Dorothy Curran, daughter of Mr. and Mrs. Orville P. Curran Jr. of 149 Jarvis avenue, is visiting in Kansas City, Mo.

The April sale of articles made by the Vocational Society for Shut-ins will be held in the ballroom of the Ambassador hotel tomorrow and Wednesday.

Mrs. Ernest Byfield will be the committee in charge of the charge. Tomorrow at 12:30 o'clock the society will hold its quarterly meeting at the Ambassador.

Mr. and Mrs. George M. Reynolds of 1444 Lake Shore drive will return from California about May 1.

Mrs. Marshall Field III, of 1209 Lake Shore drive returned on Saturday from the east. She was accompanied by her sister-in-law, Miss Gwendolyn Field, who arrived recently from England and has been visiting Mrs. Marshall Field in Washington, D. C.

Mr. and Mrs. Edward F. Curry, who have been at the Drake since returning from the west, have opened their Lake Forest residence for the summer.

Mr. and Mrs. William Wrightley Jr. will remain at their Pasadena residence until the late spring, when they will open their house at Lake Geneva.

Mr. and Mrs. Philip Wrightley will remain in the city for the summer, except for week-ends at Lake Geneva.

Mr. and Mrs. W. L. Hodgkins and family of 229 Lake Shore drive have moved to the residence of the late Samuel H. Wheeler at Lake Geneva for the summer and will occupy it early in May.

Dr. and Mrs. Charles C. Beery of 1121 East Fifty-fourth street have returned from California.

Miss Lois Kellogg of 1923 Prairie avenue will leave within a fortnight for Palm Springs, Cal., where she will spend the winter, having returned only a few weeks ago.

Mr. and Mrs. John Russell Adams of 1260 State Parkway, who have spent the winter in Florida, are in New York for a brief stay before returning to Chicago.

Mrs. Kellogg Fairbank of 1244 North State street has gone to New York for a week's visit with her daughter Janet, who is a student at Radcliffe.

Mrs. Fairbank will visit in Washington before returning to Chicago.

WASHINGTON SOCIETY

Washington, D. C., April 17.—(Special.)—The secretary of war and Mrs. Weeks and the minister of Sweden and Mrs. Wallenberg were among the guests at the dinner given tonight by Mr. and Mrs. Henry Cleveland Perkins in honor of their house guests, the former Danish foreign minister, Count Raben, and Countess Raben.

Dinner parties were entertained last night by Mrs. Henry F. Dimock for the Vice President and Mrs. Coolidge; by the British ambassador and Lady Jellicoe in compliment to Col. George Harvey, newly appointed American ambassador at London; by Mrs. Hauge for the secretary of state and Mrs. Hughes, and by Mrs. Stephen B. McKim, whose guests were invited to meet the secretary of war and Mrs. Weeks.

Miss Anna Louise Kittelle and Commander Charles J. Moore, U. S. N., of Decatur, Ill., were married Saturday afternoon. The wedding was advanced from the date in June originally fixed, owing to the orders recently received by the bride's father, Capt. Sumner E. Kittelle, U. S. N., to assume the office of governor of the Virgin Islands.

Capt. and Mrs. Kittelle will sail on Wednesday.

Give Reception.

Mr. and Mrs. David Goodman of the Hotel Grand gave a reception yesterday afternoon at the residence of Mrs. Albert Capen, 1214 East 64th street, for their daughter, Lorraine Phyllis, whose engagement to Jerry Schuster was announced recently.

## WINNIE WINKLE, THE BREADWINNER. Fathaw Is Poor Again

## Dohnanyi Bursts Studio Shackles on His Rhapsodie

BY RUTH MILLER.

SOME musicians are cursed by perpetrating a popular composition. In an unwary moment inspiration strikes them. They write a piece of music, and the world is created in that brilliant flash is thrown to the multitude, to be heeded, basted and teased, mauled and pawed for the sacred music. It becomes a horrible thing, a banality, the most tawdry of musical platitudes. That was the lot of Dohnanyi's Humoresque, Rachmaninoff's sharp minor Prelude, and also the P sharp rhapsodie by Dohnanyi which that distinguished composer played at the Illinois theater yesterday afternoon.

Suffice it to say that the glittering virtuosity of D. Dohnanyi in this respect did much to erase the memory of certain fat fingered performances heard in the past. Aided by his strong, certain fingers it burst the shackles bound about it by the pianist of the studios and the passionate pink tea. It came at once emancipated and brilliant.

Interpretatively M. Dohnanyi paints with a brush soaked in vivid color. There is intensity in his rhythms, his phrases are sharply cut. Like all the routine artistic great he strangles a minimum of notes, so from the recklessness of his virtuosity his technique may be designated infallible.

A finely intelligent musician, a splendid artist, a highly expert and successful pianist, but Dohnanyi is a pianistic pianist.

Fritz Kreisler, glorious troubador. Will the time ever come when your idolatrous multitude will weary of the idolatrous virtuosity in your fingers?

Not so long as you may set them cowering, weeping, or dreaming as you did with the little pieces. You may play a note here and there, you may play a wee wisp of spirit, your memory may sleep for an infinitesimal second after the fashion of lesser men, but so long as your playing weaves its usual subtle spell, your head and wholly heart, your uncountable worshippers will continue to jar the roof with the racket of lusty enthusiasm.

Aletta Tenold, an intelligent pianist, and an excellent musician possessing a big round tone and capable, accurate fingers, was heard yesterday at Kimball hall. Her audience quivered the hall and gave her the goodly portion of enthusiastic applause which her interesting and straightforward playing deserved.

Alexander Sebald, whose artistry and competent ways with the violin are so well known to Chicagoans as to require no extensive comment, was heard in his second concert of the season at Orchestra hall. His audience received an excellent and clean cut performance of a Bach fragment for the violin, a spontaneous and enthusiastic in alone with in seldom accorded that music maker's writing for the violin.

DDINGS, ENGAGEMENTS

Miss Harrietta L. Theobald, daughter of Mr. and Mrs. J. Harry Theobald of 4730 Ellis avenue, will be married to William R. Meyers of Hibbing, Minn., today.

Mr. and Mrs. Max May of New York announce the engagement of their daughter, Dorothy, to Byron James Carpenter, son of Mr. and Mrs. S. J. Goldstein of New York, formerly of Chicago.

Mr. and Mrs. Harvey R. Myer of 2914 East 74th place announce the engagement of their daughter, Marie, to John F. Trimble of Morrisstown, Ind.

Musical Review.

The Yllero club of Our Lady Help of Christians' parish will present a musical revue at Howe hall, Lorel avenue, near Chicago avenue, Wednesday evening, April 22. John Brennan is directing the affair and the proceeds will go into the parish fund.

Musicians' Club.

There will be an active members' business meeting of the Musicians' Club of Women today at 10 o'clock in room 1016 of the Fine Arts building. Election of officers and important matters of club policy are to be considered.

Resinol

Is what you need for that tormenting skin trouble. Thousands have proved its unusual healing powers by using it for the most stubborn, aggravated cases of acne, eczema, and other skin diseases. It soothes while it heals. Get a jar from your druggist today.

Give Reception.

Mr. and Mrs. David Goodman of the Hotel Grand gave a reception yesterday afternoon at the residence of Mrs. Albert Capen, 1214 East 64th street, for their daughter, Lorraine Phyllis, whose engagement to Jerry Schuster was announced recently.

## For Infant Welfare

MISS MARION BRYANT

MISS MARION BRYANT is on the committee in charge of a benefit performance of "Bab" at Powers' theater tonight.

Mr. Utley of the Newberry library has prepared a bibliography of the history of the time, and prizes have been offered by the Drama League for the best essay by a pupil on this most important event in our national history.

The essays will be read and the prizes awarded by a committee consisting of Victor Lawson, President Scott of Northwestern university, and John M. Stahl, president of the Society of Midland Authors.

Plan Plays to Aid U. of C. Settlement

Friday evening, April 22, three one-act plays under the direction of Hamilton Coleman will be given at Mangel hall, University of Chicago, for the benefit of the University Settlement.

The plays and the casts are: "O'Flaherty, V. C." by George Bernard Shaw, with Mrs. Marshall Field III, with Mrs. Mark Walton, Mrs. Henry Burroughs, Charles Brewster, and Edw. Corbett; "The Open Door" by Alfred Sutro, with Mrs. Marshall Field III and Mr. Millet; Mrs. John Alden Carpenter is in charge of the stage and lighting effects. The play will be rehearsed at the Arts club with the same casts.

Seminary Alumnae Pick New Officers

At a luncheon on Friday at the home of Mrs. Thomas Henegge, 228 South Euclid avenue, Oak Park, executive committee of the National Park seminary alumnae elected the following officers: President, Mrs. Philip Kniskern, 4468 Drexel boulevard; vice president, Miss Fayette Toppa, 5057 Woodlawn avenue; recording secretary, Miss Marian Carpenter, Evanston; corresponding secretary, Miss Clara Mallen, Oak Park, and treasurer, Mrs. Ben Lawrence, Oak Park.

For Wounded Soldiers.

Proceeds of a party held at the Hotel Morrison Saturday night by the Beta Sigma sorority, will be given to wounded soldiers, Marion Wadler, secretary, announced last night.

The Pearl Shop

"Frederic's" is your greatest protection in the purchase of pearls.

WE make pearls in our laboratory, give them our name, and have been doing this for twenty-five years. In all this time no other pearls have been given the makers' name, or been sold at retail by the makers. Come and see these superior pearls.

\$5 to \$40 to \$450.

Frederic's

Makers of Classic Jewelry. Eleven East Washington Street. South Chicago.

## Clubwomen Will Stage Pageant to Honor the Pilgrims

PAGEANT to commemorate the 300th anniversary of the landing of the Pilgrims will be given in Orchestra hall Saturday evening, April 23.

"Pilgrims," written by Percy Mackaye, will be played by an enormous company. The committee in charge of the pageant is headed by the Drama League, and associated with it are representatives from educational and civic organizations, Northwestern university, the University of Chicago, Lewis Institute, the Newberry library, the public library, the church federation, musical societies, and recreational groups.

The five episodes of the pageant will be acted by groups from five different women's clubs. Since the performance is in the nature of a patriotic ceremonial, it will be free to the public and its expense will be defrayed by the sale of the boxes only.

The pageant inaugurates the celebration which will be continued in the public schools under the direction of the same committee. Pilgrim plays will be acted in the various parks of Chicago by the school children, and moving pictures will be taken of the best of these plays.

Mr. Utley of the Newberry library has prepared a bibliography of the history of the time, and prizes have been offered by the Drama League for the best essay by a pupil on this most important event in our national history.

The essays will be read and the prizes awarded by a committee consisting of Victor Lawson, President Scott of Northwestern university, and John M. Stahl, president of the Society of Midland Authors.

Will Entertain Mme. Curie

A reception for Mme. Marie Curie, the French scientist who, with her husband, discovered radium, is planned for May 26 by the women students of Northwestern university.

## PARENT-TEACHERS

MRS. R. F. LANGWORTHY. CLARE. (10) Moffett. (Russell Photo.)

MORE than one hundred Parent-Teacher associations of Chicago and the surrounding suburbs are to meet at the spring convention of the Council of Parent-Teacher associations to be held tomorrow in the clubroom of the Art Institute.

The morning session will be given over to reports of delegates and to a symposium conducted by Mrs. Charles A. Clark, vice president, Chicago district, on "How Can We Make Our Work More Efficient?"

Carlton W. Washburne, superintendent of the Winnetka public schools, will address the meeting at 2 o'clock on "The Individual System of Promotions," and Mrs. Ira Couch Wood will give a nutrition demonstration.

Mrs. B. F. Langworthy, chairman of the council, will preside.

OBITUARY.

DR. ALFRED N. BOE, for thirty-five years a druggist at 946 Wellington avenue and for fifteen years a practicing physician, died yesterday morning at the Swedish Covenant hospital. He was 61 years old. Dr. Boe is survived by a widow and two sons, Russell and Chester, and one daughter, Ethel.

## Gorgeous Chinese

Robes Mark Ball for Famine Sufferers

NEW YORK, April 17.—(Special.)—The Chinese costume ball, held Saturday night at the Ritz Carlton for the benefit of the Chinese famine fund, was largely attended, and more gorgeous Chinese robes were worn.

An interesting feature was the dinner given in advance.

The wedding of James Gregory Smith, the oldest son of Edward Curtis Smith, formerly governor of Vermont, and a grandson of John Gregory Smith, the civil war governor of that state, and Miss Genevieve C. Babbitt, a daughter of Mrs. Kurnal Rufus Babbitt of 15 East 78th street, took place at 4 o'clock Saturday afternoon in the chapel of St. Bartholomew's church.

The Rev. Dr. Leighton Parks officiated.

Mr. and Mrs. Lewis L. DeLafayette of 20 West 88th street announce the engagement of their daughter, Miss Charlotte DeLafayette, to Robert McCurdy Marsh of 45 West 11th street, son of the late Dr. and Mrs. Elias J. Marsh of Patterson, N. J.

DEATH NOTICES

IN MEMORIAM.

HARRISON—Father Harry Harrison. A tribute of love and remembrance of my beloved wife and our dear mother, who passed away April 17, 1921, at 10:30 a. m. from loving husband and children.

BATES—Mrs. A. Bates, nee Quinlan, April 17, 1921, beloved wife of Joseph Bates, 602 S. Hamilton st., died at 10:30 a. m. from illness. Burial Tuesday at 9:30 a. m. from the residence, 602 S. Hamilton st., to the Lake View cemetery where solemn high mass will be celebrated. Interment Mount Carmel. For information phone Humboldt 5772.

BERNHART—Anne Bernhart, suddenly Sunday, April 17, beloved sister of Amelia Bernhart, 602 S. Hamilton st., died at 10:30 a. m. from illness. Burial Tuesday at 9:30 a. m. from the residence, 602 S. Hamilton st., to the Lake View cemetery where solemn high mass will be celebrated. Interment Mount Carmel. For information phone Humboldt 5772.

FLYNN—Joseph S. Flynn, beloved husband of Mary Flynn, nee McGee, died at 10:30 a. m. from illness. Burial Tuesday at 9:30 a. m. from the residence, 602 S. Hamilton st., to the Lake View cemetery where solemn high mass will be celebrated. Interment Mount Carmel. For information phone Humboldt 5772.

HARMS—Mathilda Harms, aged 78 years, at 10:30 a. m. from illness. Burial Tuesday at 9:30 a. m. from the residence, 602 S. Hamilton st., to the Lake View cemetery where solemn high mass will be celebrated. Interment Mount Carmel. For information phone Humboldt 5772.

BERNHART—Anne Bernhart, suddenly Sunday, April 17, beloved sister of Amelia Bernhart, 602 S. Hamilton st., died at 10:30 a. m. from illness. Burial Tuesday at 9:30 a. m. from the residence, 602 S. Hamilton st., to the Lake View cemetery where solemn high mass will be celebrated. Interment Mount Carmel. For information phone Humboldt 5772.

## FIGURES REVEAL HOW WAGES CUT RAIL EARNINGS

BY O. A. MATHER.

With the possible exception of European politics and its bearing on American commerce and finance, the American railroad situation is regarded as the most important factor in the future of business and industry. In view of the plea of the roads that they be permitted to effect economies through direct and indirect wage reductions, the latest statistics on their general situation is interesting.

The decline in earning power of the roads, in spite of higher rates, is clearly reflected in the fact that all previous records for idle freight cars were broken in the first week in April, the number being 507,242 or 21 per cent of the entire freight equipment of the country. This compares with a shortage at this time last year of about 150,000 cars. Making allowance for heavier car loadings and somewhat improved operating conditions, still the declining volume of business is staggering.

**130 Per Cent Wage Boost Since 1914.**  
On the subject of wages a vast amount of data has been presented. From the most reliable statistics it appears that average wages have increased about 130 per cent since 1914, whereas the government figures record the increase in the cost of living at about 65 per cent. Some of this increase in wages was the result of the Adamson law enacted in 1916 and therefore it cannot all be charged to wartime control of the roads by the government.

The greater part of the increase in wages, however, occurred during the period of government control and statistics compiled by the Interstate Commerce commission for this period are more pertinent in view of the plea of the railroads for the abrogation of certain working rules and increases promulgated during that time. The roads no longer enjoy a government guarantee and demand that they be allowed to make changes which will increase operating efficiency either through lower wages or more efficient labor.

**Increase During U. S. Control.**

Recalling that the government took control of the roads at the beginning of 1918, operated the property until March 1, 1920, and offered a further guarantee until Sept. 1, 1920, let us see what happened to railroad wages during that

**Continental Motors.**  
A. F. T.—The Continental Motors corporation reported net profits of \$3,567,504 in the year ended Oct. 31 after depreciation and taxes. It should be noted that the big decline of values in the motor business in general had not yet taken full effect. The company's inventory on Oct. 31 was \$11,164,999, nearly twice what it was a year before. It is not unlikely that some adjustment has been necessary since then. Instead of paying the usual 2 per cent quarterly dividend last November the company changed the date to December and the rate to 1 per cent. The March dividend was passed. No later report available.

**American Agricultural Chemical.**  
H. R., Toulon, Ill.—Most of the stocks on your list are more or less speculative, generally more. The safest one is American Agricultural Chemical preferred. Dividends have been paid on this stock without interruption for twenty-two years. In 1920 the dividend was earned three times over. Early this year the company issued \$50,000,000 of mortgage bonds, which, of course, are a charge ahead of the preferred stock, but as most of the money was used to retire other

time. The pay rolls of the roads in 1920, after giving effect to the various increases in wages awarded during the year, totaled approximately \$2,722,816,186, compared with \$1,729,482,142 in 1917, the last year before federal control. Thus in three years total wages increased \$1,993,334,044, or about 114 per cent. But the 1920 figures probably will be even further increased when full reports have been received of May and June back pay disbursements.

In these three years the number of railroad employees increased from 1,722,576 in 1917, to 2,664,160 in 1920, an increase of 54.3 per cent, or about 18 per cent. Taking the figures for 1919, the middle year, the pay rolls totaled \$2,536,500,000, and the number of employees averaged 1,912,000. The average pay per man in 1920 was \$1,817, compared with \$1,093 in 1917, an increase of 66.4 per cent.

**Slason Thompson's Answer.**  
In a late bulletin Slason Thompson, the

## STRIKES FAIL TO DEPRESS THE LONDON STOCKS

BY MANFRED EMANUEL.

(Chicago Tribune Foreign News Service.)

LONDON, April 17.—There's no general strike and London stock exchange is able to say "I told you so." Never before in the time of crisis has such uniform optimism shown itself. When the house closed for the week end, the outlook still was black, but prices were at their best.

The week began cheerfully and quotations moved upwards. Then on Wednesday when the general strike seemed to be inevitable prices dropped. Subsequently the upward tendency again was in evidence. Business, of course, has been negligible and difficult to transact, the changes being largely of the marking up or down variety. There never was any real selling pressure.

The gilt edged market was the barometer of events, though even in that the fluctuations for one day never exceeded three-fourths—a sign of remarkable strength. Some rails followed suit and were bought at lower levels.

Foreign bonds continued to attract attention, though not to the extent shown in the previous two weeks. Foreign rails were neglected.

Oils, however, moved up and down but a seller on Wednesday, though a buyer against on Thursday when all the stock offered was well absorbed. On the concluding day prices opened strong, but fell away slightly at midday, but closed strong with Mexican Eagles and Shells at the best of the week.

Industrials mostly were quiet with one or two shares marked down on dividend announcements. There, too, the tone improved on the last day. The absence of business still is the chief trouble on the stock exchange.

## Montana Printing Houses Reject 44 Hour Week

Helena, Mont., April 17.—At the end of a two day session here the Montana Printing Employers' league announced late today that the forty-four hour week demanded by the printing trades crafts of Montana will not be granted May 1.

## Sunlight homes for Inland workers

Near our Indiana Harbor plant we have purchased 360 acres on which we are now building the first subdivision of 200 houses.

These houses are modern in every respect, truly beautiful, and will be surrounded by cement roads, sidewalks, and an abundance of grass, shrubbery and flowers.

Any Inland employee can buy one of these homes at actual cost to the company. If he desires to do so, he can buy his home on an easy payment plan.

In designing these homes, we

Anything that helps an Inland worker, helps maintain Inland Quality.

Plants at Indiana Harbor, Ind. INLAND STEEL COMPANY  
and Chicago Heights, Ill. First National Bank Bldg., Chicago

have taken much from the experience gained in war housing projects. Attractiveness at reasonable price, with interior arrangements convenient and economical, are some of the desirable results.

Aside from this feature, Inland is a good place to work. Any man with an idea gets a chance to go higher. Bonuses are given for certain work. The Profit Sharing Plan offers to all an opportunity to become a real partner in the business. Nothing is left undone to keep a man happy and all his family comfortable.

1921  
WILL REWARD  
FIGHTERS  
is rewarding  
1921 fighting tailor  
increases sales 40%

WOODWARD HOLMES sells Ed V. Price tailoring in the loop. When he read the slogan "1921 Will Reward FIGHTERS" in The Tribune he determined to test it.

Ever since he opened his store he has been one of the largest advertisers of men's tailoring in The Tribune—but he never used space so consistently and heavily as since January 1, 1921. He reports the following gains over the corresponding period of 1920:

Increase in gross sales..... 40%  
Increase in garments sold..... 75%

The difference represents the lower price of tailoring this year. During a recent interval his sales were \$61,654.32 as compared with \$44,195.80 during the corresponding interval of 1920.

## The Chicago Tribune as a Business Builder

It has been the privilege of The Tribune to assist in the making of most of Chicago's great mercantile successes. In this prosperous community of more than three million people there is always business to be had. Each year sees new advertisers winning success, while the old ones continue to expand. The Chicago Tribune will be glad to give YOU expert assistance in making profits out of Tribune space.

## The advantages of Gas as an industrial fuel

Chicago manufacturers in increasing number are using this 100% fuel because

- it is delivered at the burner
- in any quantity
- at any time
- in any place

Now—when it is imperative to practice every possible economy in plant operation—you should investigate the manifest advantages of Gas as an industrial fuel. Gas comes to you just as you want it—it is constantly on tap the same as your water supply. It requires no storage or handling. You pay for it after it has been consumed. It leaves no waste in ash or smoke. It is as clean as sunshine.

Gas is adjustable to a fraction of a degree—a constantly uniform heat under perfect control—a distinct aid in increasing output and improving the quality of production. This 100% fuel and its even, dependable heat insure economies in time, labor, material and money you cannot otherwise secure.

A few Chicago industries which are using 100% fuel

International Harvester Co.  
American Car & Foundry Co.  
Crane Company  
Sawyer Biscuit Co.  
National Biscuit Co.  
Continental Can Co.  
Armour & Company  
Morris & Company  
Stewart Manufacturing Corporation.  
Kellogg Switchboard & Supply Co.

The service of our Gas Engineers is at your disposal

Let one of our engineers explain to you the use of gas for manufacturing purposes. We maintain an efficient corps of gas engineers to consult with factory managements, specify the exact appliances best adapted to the work in hand, furnish gas consumption data and other detailed information. This service is at your constant disposal without obligation or charge. Telephone or write us today. Call Wabash 6000 and ask for Industrial Gas Department.

1921 Will Reward FIGHTERS

The New York Times.

Nothing is more familiar in financial history than the arrival of a moment when all indications seem to point to disastrous results, when the market appears to be "discounting" such a probability, when Wall Street in particular professes inability to see any quarter from which encouraging news may come, and when nevertheless, some highly reassuring news is suddenly received from two or three unexpected quarters. This last occurrence is only on the doctrine of mathematical probability. It is as reasonable to expect it to be to look for unexpected news at the climax of a speculative hysteria of overconfidence, when Wall Street and the stock exchange have assumed that nothing can happen to upset its expectations.

The evidence toward last week's close of the fact of the railway situation, and the fact that the railway situation, at their standstill, at a point, must mean, in the long run, a permanent increase in money, does not settle the question which surrounds the financial future of the United States.

It is shown, however, not only that there are possibilities of solving these problems, but that the latest prevalent spirit of pessimism unquestionably was unwarranted.

The condition of things imagined under the influence of that mental depression was quite as far from the actual situation as the height of the speculation of 1919. No such economic conditions are ever visible on all sides as ever solved in the way which Wall Street had prescribed as the only possible solution, but they are always a historic truth which, in this country at any rate, is the basis for the man who is a bear on the financial future of the United States will go broke.

We are probably nowhere near the real solution of our economic difficulties. But the latest week's occurrence may at least suggest to the financial mind that it is more useful to discuss how they may be solved than to declare that they cannot be solved at all. As a matter of fact, the stock exchange itself has for some time been showing signs of weariness of reflecting unmitigated pessimism.

**Steel Cut Close to Point.**

The manner in which last Wednesday's market received the news of the steel corporations' cut in prices was not without significance. Sometimes the news in the shares of producing companies, but in this case, as in so many other instances, the market prices had already "discounted" in advance what the news which might come would mean. The United States Steel had had declined points from the high price of 1921 and 21 points from the low of 1920, and had touched the lowest since autumn of 1915. Its price this week had hardly affected even momentarily by the reduction in the steel market.

From one point of view that reduction was an unmistakably favorable occurrence. The real problem before the producing markets had been the equalizing and coordinating of the general decline in prices, so that some sort of equilibrium should be restored.

**Three Obstacles to Overcome.**

Aside from the fact, most conspicuous in cotton, grain, and copper, of unyielding prices which must be disposed of before any real demand can operate normalcy, there have been three awkward obstacles to overcome.

In some industries reduction of wholesale prices has not yet been equivalent to the reduction in the retail market; therefore, consumers will not be free to buy, in the available price of finished goods, the value of the price of finished goods, this has been true of many trades where the price of finished goods is not yet reduced.

In nearly all cases the decline of prices has been greater than the reduction of costs of manufacture, notably in the case of steel.

Until some sort of readjustment is made all along the line, normal conditions of industry cannot exist. This is a well known and invariable condition in periods of economic reaction.

**The Need for Lower Wages.**

The labor problem has been grappled with in numerous industries. The tax-payers' side of the industry cannot be expected to pay more for labor, and the consumer, the available price of finished goods, the value of the price of finished goods, this has been true of many trades where the price of finished goods is not yet reduced.

In nearly all cases the decline of prices has been greater than the reduction of costs of manufacture, notably in the case of steel.

CHICAGO DAILY TRIBUNE: MONDAY, APRIL 18, 1921. \* 27

ELT. FREEMAN & CO. AUCTIONEERS, 19-21 Chestnut-st., Philadelphia, Pa.

BUICK Try it for a Week. That's the Best. Guarantee. You Can Get on a Used Car.

THAT'S WHAT WE LET YOU DO—TAKE IT OUT FOR A WEEK, THEN BRING IT BACK IF YOU DON'T LIKE IT AND GET YOUR MONEY BACK. NO STRINGS TIED TO IT.

We are Buick dealers, have been for a long time, expect to be for a long time, we trade, sell, and buy Buicks, new or old, but we take any good car of any make in trade.

We have ready for sale now BUICKS, OLDSMOBILE, PAIGE, STUDEBAKER Lots of them. Take them out and try them.

If you are getting tired of the old bus, bring it in and trade it for a new BUICK. Your old car will be the first payment, balance long time.

REMEMBER THE PLACE, South Side BUICK Sales Co., GRAND BLVD. at 39TH-ST. DOUGLAS 622. Open Evenings and Sundays.

FORDS "WITH A GUARANTEE" CASH OR TERMS. 1920 Sedan, perfect, just like new... 1920 touring, original finish... 1920 coupe, original finish... 1920 roadster, original finish...

The ten Michigan prize winners will be announced in THE TRIBUNE for Sunday, April 24. One thousand dollars will go to the judges' first choice, \$250 to the second, \$100 to the third, and \$50 to each of the remaining seven. And then perhaps one of them will take unto herself the \$10,000 set aside for the most beautiful girl in the middle west. The geographies tell us that Michigan is noted for its fruits and mineral products. Watch next Sunday's paper for another reason for its fame.

ADULTS?

## DORIS BLAKE'S ANSWERS

Where's a Birch Branch?

"Dear Miss Blake: We are two beautiful girls of 16, and all the boys are wild about us. We both have our hair bobbed and we use lots of eyebrow pencil and rouge, which makes us look like vamps. We are both crazy about one man, 26 years of age. He has mentioned marriage to both of us, so we are undecided which he likes. He has a roadster and he often takes us out riding. Our parents do not approve of this wild scheme at all, so we always have to sneak away. Please let us know if one of us should marry him."

"Dimples and Beauty, you come down here to my private office some day and bring a nice big branch of the old birch tree and let me illustrate just how I feel toward ridiculous children who paint and pencil their eyebrows and try to look like vamps and who sneak away from their parents."

GEORGE: YEA, YEA, THE YOUNG man's fancy turns his toes to springtime, too, is it not so, George? Send a. a. for pamphlet on scalp which includes attention to particular ill. Too, we can give you with exercises for your scalp. Some good ones—guaranteed to make last season's wavy into soft to the minute one of exquisite proportions. Repeat that query when you send the stamp.

BABETTE: WANT NICE, SMOOTH, glossy hair? Do you brush it religiously every night? Do that for five minutes. Time yourself by the clock. Brushing stimulates the scalp's activity. It distributes throughout the hair the fat of glands in the scalp, which promotes the desired lustre. In fact, as a scalp massage, you cannot much improve on the good old hair brush! If you can brush it again in the morning—just that much healthier, smoother, and glossier your hair will be.

E. V.: I HEARD AN ARTIST note describing the effect of a glow hat on a girl's complexion when the sun struck her. She said it made her skin a vermilion. "Ladies," you will make a skin that is the bluish bit sallow a hideous color. So, if you are in doubt, better get expert advice from one who has the privilege of living in the color.

JUNE: THE PERMANENT hair treatment doesn't mean what it says. Its permanency is for six months only. Then it must be washed again. Hair that has been treated takes a water wash. Yes, and it can be marcelled, too. If your hair has been permed, you must not have it permed again. Neither should a woman have her hair done if she has ever had it dyed.

B. G.: YOUR EYES NEED LOOKING after, that's certain! Headache, sandy feeling all the time, and long hours at such close work! Have you never worn glasses? Better get them. In the meantime, after you wash your face at night lay a cloth wrung out of hot water on closed lids. In the morning repeat using cold water instead. Let your oculist prescribe the eye exercises he has seen to what strength your eyes may be put.
